Select financial highlights from operations (\$CDN)

- (i) Adjusted Operating Earnings, a non-IFRS measure, is used by Management to evaluate financial operating results. It is defined as earnings before income taxes adjusted for items that are not considered representative of ongoing operational activities of the business, and items where the economic impact of the transactions will be reflected in earnings in future periods when the underlying asset is sold or transferred.
- (ii) Adjusted Earnings per Share, a non-IFRS measure, is used by Management to evaluate financial operating results. It is defined as basic earnings per share and is adjusted on the same basis as Adjusted Operating Earnings.
