

Fourth Quarter and Year-End 2016 Review Building the path to further profitable growth

This presentation contains "forward-looking information" within the meaning of applicable securities law. These statements are based on current expectations, estimates, forecasts, and projections about the industries in which the Company operates, as well as beliefs and assumptions made by the Management of the Company.

These statements are not guarantees of future performance and involve assumptions and risks and uncertainties that are difficult to predict. These assumptions have been derived from information currently available to the Company, including information obtained by the Company from third-party sources. These assumptions may prove to be incorrect in whole or in part. In addition, actual results may differ materially from those expressed, implied, or forecasted in such forward-looking information, which reflect the Company's expectations only as of the date hereof. Please refer to the sections entitled "Risk Factors" and "Forward-Looking Statements" in the Company's Management Discussion and Analysis for the fiscal year ended December 31, 2016 for additional detail.

In addition, this presentation contains the following non-IFRS measures:

Adjusted Operating Earnings: Defined as earnings before income taxes adjusted for items that are not considered representative of ongoing operational activities of the business, and items where the economic impact of the transactions will be reflected in earnings in future periods when the underlying asset is sold or transferred.

Adjusted Earnings per Share: Defined as basic earnings per share adjusted for all items that are not considered representative of on-going operational activities of the business, and items where the economic impact of the transactions will be reflected in earnings in future periods when the underlying asset is sold or transferred.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization: Defined as earnings before interest and income taxes plus depreciation and intangible asset amortization, adjusted for items that are not considered representative of ongoing operational activities of the business, and items where the economic impact of the transactions will be reflected in earnings in future periods when the underlying asset is sold or transferred.

Free Cash Flow: Defined as cash provided by operations, less additions to long-term assets.

Refer to slides 13-15 for the reconciliation of non-IFRS financial measures
