Notice of Annual and Special Meeting of Shareholders
April 27, 2017
and Management Proxy Circular

INVITATION TO SHAREHOLDERS

March 27, 2017

Dear Fellow Shareholder:

We are pleased to invite you to attend the Annual and Special Meeting of Shareholders of Maple Leaf Foods Inc. ("Maple Leaf Foods" or the "Corporation") to be held at ThinkFood!, 6897 Financial Drive, Mississauga, Ontario, Canada at 11:00 a.m. Eastern Daylight Time on Thursday, April 27, 2017. The items of business you will be asked to act on are set out in the accompanying Notice of Annual and Special Meeting and Management Proxy Circular.

We also invite you to read the Corporation's 2016 annual report. It provides a discussion of the Corporation's financial and operating performance during the past year and the Corporation's plans for 2017 and beyond. The Corporation completed certain initiatives in 2016 which were part of its supply chain network transformation and is now focused on becoming the premier consumer protein company.

We expect to share our view of the Corporation's future with you at the Annual and Special Meeting.

Ultimately, corporations are governed by their shareholders. We encourage you to ensure that your shares are represented and your views made known, whether or not you are able to attend the meeting of shareholders. If you do not plan to attend in person, please take the time now to sign, date and return the enclosed proxy form in the envelope provided so that your shares are voted at the meeting according to your instructions.

We thank you for your continuing support as a shareholder of Maple Leaf Foods.

Yours very truly,

DAVID L. EMERSON
Chairman of the Board

MICHAEL H. MCCAIN
President & Chief Executive Officer

MANAGEMENT PROXY CIRCULAR

VOTING INFORMATION

SOLICITATION OF PROXIES

This Management Proxy Circular (the “Circular”) accompanies the Notice of the Annual and Special Meeting of Shareholders (“Notice of Meeting”) of Maple Leaf Foods Inc. (“Maple Leaf Foods”, “MLF” or the “Corporation”) to be held on April 27, 2017. It is provided in connection with the solicitation of proxies by the Corporation’s management for use at the meeting. It is planned that the solicitation will be primarily by mail, but proxies may also be solicited by telephone, in writing, by email, by fax, by other electronic means or in person by employees of the Corporation or by agents of the Corporation at a nominal and customary cost. The costs of these solicitations will be borne by the Corporation.

VOTING OF PROXIES – REGISTERED SHAREHOLDERS

A proxy in the form enclosed with the Notice of Meeting confers discretionary authority on the management nominees named therein with respect to amendments or variations to the matters identified in the Notice of Meeting or other matters that may properly come before the meeting. Management of the Corporation is not aware of any amendments or variations of the matters set out herein or other matters that may be properly presented for action at the meeting, but the proxy enclosed with the Notice of Meeting confers the authority on such management nominees to act on amendments or variations to the matters identified in the Notice of Meeting or other matters that may properly come before the meeting.

If you are a registered shareholder and wish to vote at the meeting, you do not need to complete or return your form of proxy. Simply attend the meeting and present yourself to a representative of the Corporation at the registration table.

Every shareholder has the right to appoint some other person or company of their choice, who need not be a shareholder, to attend and act on their behalf at the meeting. If you wish to appoint a person or company other than the persons whose names are printed on the form of proxy, please insert the name of your chosen proxyholder in the space provided on the form of proxy. That individual or company can vote for or against or withhold your vote as you’ve specified on the proxy form or as the proxy holder chooses if you have not specified voting instructions. Common shares represented by proxies executed in favour of the management nominees named in the proxy enclosed with the Notice of Meeting will be voted for or against or withheld from voting in accordance with the choices specified in the executed proxy or any ballot that may be called for, but if no choice is specified such shares will be voted:

- (i) FOR the election of the persons listed as nominees under the heading “Election of Directors” as directors of the Corporation;
- (ii) FOR the appointment of KPMG LLP, Chartered Accountants, as auditors of the Corporation and authorizing the directors to fix their remuneration;
- (iii) FOR the resolution approving Maple Leaf Foods’ approach to executive compensation on an advisory and non-binding basis; and,
- (v) FOR or AGAINST such actions as the management nominee thinks fit with respect to any other matter that may properly come before the meeting, including any amendments or variations in the matters identified in the Notice of Meeting.

REVOCATION

A proxy in the form enclosed with the Notice of Meeting may be revoked by an instrument in writing, including another proxy, duly executed by or on behalf of the shareholder and deposited at the registered office of the Corporation at 6985 Financial Drive, Mississauga, Ontario, Canada L5N 0A1 at any time up to and including the second-last business day preceding the day of the meeting, or any adjournment or postponement thereof, or with the Chairman of the meeting on the day of the meeting or any adjournment or postponement thereof.

VOTING SHARES AND THE PRINCIPAL HOLDERS THEREOF

There were 130,073,689 common shares outstanding as of March 21, 2017. The Corporation has been informed that MCI exercises control or direction over 46,807,307 common shares (36.0%) of the outstanding common shares of the Corporation. The Corporation has also been informed that Mr. Michael H. McCain beneficially owns and controls 100% of MCI.

Each common share entitles the holder to one vote at the meeting. Persons who are shareholders of record at the close of business on March 23, 2017 will be entitled to vote at the meeting.

NON-REGISTERED SHAREHOLDERS/BENEFICIAL OWNERS

Most shareholders are “beneficial owners”, meaning they are non-registered shareholders. The common shares held by non-registered shareholders are registered in the name of an intermediary such as a securities broker, financial institution, trustee, custodian or other nominee who holds the shares on their behalf, or in the name of a clearing agency in which the intermediary is a participant (such as CDS Clearing and Depository Services Inc.). Intermediaries are obliged to forward meeting materials to the non-registered holders unless otherwise instructed by the holder (and as required by regulation in some cases, despite such instructions).

Non-registered shareholders should follow the directions of their intermediaries on the procedures to be followed for voting. Generally, intermediaries will provide non-registered shareholders with either (a) a voting instruction form for completion and execution by the non-registered shareholder, or enable voting by alternate means such as telephone or Internet, or, (b) a proxy form, executed by the intermediary and restricted to the number of shares owned by the non-registered shareholder, but otherwise uncompleted. These procedures are designed to permit the non-registered shareholders to direct the voting of the common shares of the Corporation that they beneficially own.

These securityholder materials are being sent to both registered and non-registered shareholders of the Corporation. If you are a non-registered shareholder and these materials were sent directly to you by Maple Leaf Foods or its agent, your name and address and information about your holdings of securities have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding shares on your behalf.

By choosing to send these materials to you directly, Maple Leaf Foods has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the instructions from your intermediary.

VOTING AT THE MEETING BY BENEFICIAL (NON-REGISTERED) OWNERS

Only registered shareholders or their duly appointed proxyholders are permitted to vote in person at the meeting. If a non-registered shareholder wishes to attend and vote in person at the meeting, they must insert their own name in the space provided for the appointment of a proxyholder on the voting instruction form or proxy form provided by the intermediary, and must not complete the voting instructions. When the non-registered shareholder arrives at the meeting, they must present themselves to a representative of the Corporation at the registration table.

ELECTION OF DIRECTORS

The charts below identify the persons nominated for election as directors of the Corporation, to serve until the next annual meeting of shareholders of the Corporation or until their successors are duly elected or appointed. If any of these individuals is not available to act as a director, a substitute may be nominated.

For each nominee for election as director, the chart provides:

- the nominee's name;
- place of residence;
- age;
- present principal occupation and principal occupations held in the last five years, if different;
- a brief description of his or her other principal directorships and committee memberships, positions and other relevant information;
- the date he or she became a director of the Corporation;
- the number of common shares beneficially owned or controlled⁽¹⁾, DSUs held⁽²⁾ and the market value of the shares and/or DSUs as of a specified date⁽⁵⁾;
- current membership on committees of the Board;
- whether he or she is the Chair of a committee of the Board;
- attendance statistics for Board and committee meetings;
- other public board memberships in the past five years; and,
- whether he or she is independent within the meaning of applicable securities legislation.

Information on each incumbent nominee's attendance at meetings of the Board and its committees in 2016 is also set out in Appendix A. For information on director assessment, selection, orientation and education, and other corporate governance topics, please see the discussion under the heading "Report on Corporate Governance" starting on page 11 of this Circular.

The Corporation has adopted a policy for individual director voting that is described in the Report on Corporate Governance starting on page 16 of this Circular. Under the policy, if a director is not elected by at least a majority (50% + 1 vote) of the votes cast with respect to his or her election at a meeting of shareholders (other than at a contested shareholder meeting), the director shall tender his or her resignation to the Board immediately following the meeting. The Board shall determine whether or not to accept the resignation within 90 days of the relevant shareholders' meeting. The Board shall accept the resignation absent exceptional circumstances. The resignation will be effective when accepted by the Board. The director who tenders his or her resignation will not participate in any meeting of the Board at which the resignation is considered. For purposes of the policy, the Corporation intends to use proxies validly deposited in advance of the particular meeting in order to determine whether the particular approval threshold has been met unless a ballot on the election of directors is taken at the particular meeting. A press release disclosing the Board's determination (and the reasons for rejecting the resignation, if applicable) shall be promptly issued following their determination.

Accordingly, Ms. Fraser has until 2019, Mr. Close until 2020 and Ms. Stephenson and Mr. Lederer until 2021 to reach compliance with the equity ownership guidelines. Notwithstanding the five-year time allowance, Mr. Close and Mr. Lederer have met the required ownership criteria.
- (7) The CGC has reviewed the nominees’ relationship to the Corporation and has determined that each is independent of the Corporation.

Cease Trade Orders, Bankruptcies, Penalties or Sanctions

Within ten years preceding the date of this Circular:

Mr. W.E. Aziz was appointed the Chief Financial Officer of Hollinger Inc. and its subsidiaries from March 2007 to May 2008 and Chief Restructuring Officer of Hollinger Inc. and certain of its subsidiaries since May 2008, which corporation and certain subsidiaries were granted an initial order under the *Companies' Creditor Arrangement Act* ("CCAA") on August 1, 2007.

When Mr. Aziz was appointed the Chief Financial Officer of Hollinger Inc. on March 8, 2007, and, as a result of that appointment, he became subject to a management cease trade order ("MCTO") in respect of Hollinger Inc., which was originally issued on June 1, 2004 by the Ontario Securities Commission and which order remained in place until April 10, 2007, when the MCTO was revoked by the Ontario Securities Commission as a result of Hollinger Inc. filing all documents it was required to file pursuant to Ontario securities laws. Mr. Aziz was subsequently appointed Chief Restructuring Officer of Hollinger Inc. in May 2008. In 2008 and 2009, respectively, the Ontario and Alberta Securities Commissions issued permanent cease trade orders against Hollinger Inc., with the consent of the company and approved by the Ontario Superior Court of Justice. The orders were imposed due to the failure of Hollinger Inc. to file certain continuous disclosure documents with the Ontario and Alberta Securities Commissions as a result of Hollinger Inc.'s restructuring under the CCAA. The orders remain in effect.

Mr. Aziz was appointed Chief Restructuring Officer of The Cash Store Financial Services Inc. ("Cash Store") by Order of the Ontario Superior Court of Justice effective April 14, 2014. On May 30, 2014, the Alberta Securities Commission issued a cease trade order against Cash Store. On May 23, 2014, the Toronto Stock Exchange ("TSX") delisted the securities of Cash Store for failure to meet the continued listing requirements of the TSX. Cash Store voluntarily withdrew its securities from listing and registration on the New York Stock Exchange effective March 10, 2014.

APPOINTMENT OF AUDITORS

The Board proposes that KPMG LLP be appointed as auditors of the Corporation and that the shareholders authorize the directors to fix their remuneration. KPMG LLP was first appointed auditor in 1990 and has served continuously since then. The appointment must be approved by a majority of the votes cast at the meeting.

The fees paid by the Corporation for the services performed by KPMG LLP for the years ended December 31, 2016 and 2015 are in Table 1 below. Annually, the AC reviews a summary of the services provided by the auditors to the Corporation and its subsidiaries. In 2004, the AC established a policy requiring approval in advance by the AC for all non-audit services to be rendered by the external auditors; between meetings of the AC, authority for approval is delegated to the AC Chairman. Approvals under the delegated authority are presented to the full AC at its next meeting. The policy also prohibits the engagement of KPMG LLP in a number of services that the AC believes may have the potential to impact KPMG LLP's independence.

In the last two years, KPMG LLP has not provided any of the following services to the Corporation:

- (i) bookkeeping services and other services related to accounting records or financial statements;
- (ii) financial information systems design and implementation;
- (iii) appraisal or valuation services, fairness opinions or contribution-in-kind reports;
- (iv) actuarial services;
- (v) internal audit outsourcing services;
- (vi) management functions;
- (vii) human resources;
- (viii) broker-dealer, investment advisor or investment banking services; and
- (ix) legal services and expert services unrelated to the audit.

TABLE 1 – AUDIT FEES FOR 2016 AND 2015

SAY-ON-PAY NON-BINDING ADVISORY VOTE

The Board believes that shareholders should have the opportunity to understand the objectives, philosophy and principles the Board has used in its approach to executive compensation decisions. Detailed disclosure of our executive compensation program is provided in the executive compensation section of this Circular, including the letter from the Chair of the HRCC starting on page 28 of this Circular, and the compensation discussion and analysis that follows the letter.

The Board decided in 2011 that shareholders should have the opportunity to vote on the Corporation's approach to executive compensation. Accordingly, the Board adopted a policy of holding at each annual meeting a non-binding advisory vote on the approach to executive compensation as disclosed in this Circular. This advisory vote forms an important part of the ongoing process of engagement between shareholders and the Board on compensation.

At the 2016 annual meeting of shareholders held in May 2016, shareholders holding 96.9% of the shares voted at the meeting voted in favour of the Corporation's approach to executive compensation.

The Board encourages you to read the letter from the Chair of the HRCC on pages 28 and 29 and to carefully review the disclosure of the Corporation's executive compensation program starting on page 32 of this Circular before voting on this matter. The Board recommends that shareholders vote FOR the following resolution and, unless otherwise instructed, the persons designated in the form of proxy intend to vote FOR the following resolution:

RESOLVED, on an advisory basis and not to diminish the role and responsibilities of the Board, that the shareholders accept the approach to executive compensation disclosed in the Corporation's management proxy circular delivered in advance of the 2017 annual meeting of shareholders.

Since the vote is advisory, it will not be binding on the Board. However, the HRCC will take the results of the vote into account when considering future executive compensation arrangements. Comments and questions regarding the Corporation's executive compensation program are encouraged and may be directed to the Corporation at Investor.Relations@mapleleaf.com.

REPORT ON CORPORATE GOVERNANCE

The Board is responsible for the overall stewardship of Maple Leaf Foods, ultimately to preserve and to enhance the underlying value of the Corporation. Under the oversight of the Board, management of the business is the responsibility of the CEO and senior management.

The Board and management are committed to maintaining a high standard of corporate governance. To fulfill this commitment, the Board has adopted the guidelines and employs the practices and procedures summarized below.

BOARD RESPONSIBILITIES

1. Board Mandate

The Board's responsibilities for the stewardship of the Corporation are documented in the Board mandate. These responsibilities include, but are not limited to, the following:

- Approving the appointment of the Corporation's officers, including the CEO and CFO, and ensuring that succession planning programs are in place, including programs to appoint, develop and monitor management;
- The strategic planning process, providing strategic guidance to management, approving management's strategic plan after consultation and discussion, and investigating alternate strategies that could enhance shareholder value;
- Monitoring financial performance of the Corporation and its progress toward strategic and operational goals, and taking action when performance falls short of the established goals or as special circumstances warrant;
- Monitoring financial reporting and approving the annual financial statements and notes as well as management's discussion and analysis;
- Identifying the principal risks of the Corporation's business and ensuring that systems to monitor and manage risks are in place;
- Approving and monitoring compliance with all significant policies and procedures by which the Corporation is operated while overseeing the integrity of internal control and management information systems; and,
- Communications with stakeholders, including oversight for the accurate and timely reporting of financial performance.

The complete Board mandate is available on SEDAR (www.sedar.com). It is incorporated by reference into this Circular. The Corporation will provide a copy of the Board's mandate to any security holder of the Corporation free of charge upon request.

2. Corporate Strategy

Management is led by the CEO who is responsible for developing long-term corporate strategy. The role of the Board is to review, question, validate and, ultimately, after its suggestions have been considered and where appropriate incorporated, approve the strategies of each operating segment of the Corporation and the Corporation as a whole. The process of strategy development is continuous and evolving. The Board holds in-depth reviews of each business unit's operations, competitive positioning and strategy on a periodic basis. Annually the Board holds a meeting devoted exclusively to the review of the Corporation's long-term strategy. The annual strategy meeting is preceded by sessions with management to establish objectives and framework for development of the strategy. The Board monitors the Corporation's progress toward strategic and operational goals, provides ongoing guidance to management as circumstances change, and has the responsibility to take action if performance falls short of established goals.

Over the past six years the Corporation completed a significant strategic realignment of its business operations. As more fully described below, this included sizable investments in facilities and technology

in its meats operations and divestiture of other of its non-meats operations. The Board monitored progress on these large initiatives at each meeting. In 2016 the objectives of these strategies were achieved. Over the past two years, the Board oversaw the development of a strategic plan for the future. The Board supported management in identifying, developing and confirming the individual strategy initiatives that comprise the overall plan in the areas of sustainability, waste and cost elimination, sales growth and investments.

In September 2010, the Board approved a multi-year strategy to transform the Corporation to a premier consumer packaged meats company with an efficient network of large scale distribution and production facilities and an enterprise-wide resource planning system. The strategic transformation was substantially completed in 2015 and in 2016 the Corporation reached the earnings target established at the outset for the plan.

In late 2012, under the oversight of the Board, the Corporation commissioned an evaluation of its prospects and opportunities to grow and improve profitability in its bakery operations held through its 90% interest in Canada Bread Company, Limited ("Canada Bread"). The Board received updates during the first half of 2013 as the study developed and a strategy was being formulated. In mid-2013, prior to the finalization and implementation of the strategy, the Board determined that it would be in the Corporation's best interest to consider other strategic alternatives including the potential sale of the bakery operations, prior to committing to the organizational focus and additional investment in Canada Bread. The Board authorized the engagement of financial advisors and formed a Special Committee to oversee the sale process. In October 2013, the Board and the Special Committee, after having considered the feasibility of a sale and the impact it would have on the remaining operations, formally announced that a sale process was underway. On February 11, 2014, the Corporation reached an agreement to sell its bakery operations, allowing the Corporation to focus on its consumer protein business. The sale transaction closed on May 23, 2014.

3. Succession Planning

Management succession planning is an ongoing activity. The succession plans, including emergency plans, for each of the executive officer positions are reviewed by the HRCC each year and the conclusions are reported to the Board. These plans include the CEO's recommendation of short- and long-term successors for the CEO and each of the Corporation's senior executive officers. The HRCC also conducts an overall review of senior talent in the organization. Due to its importance to the long-term health and success of the Corporation, the results of the review are shared with the full Board. Neither the Board nor the HRCC has established a specific target for the number of women in executive officer positions in the Corporation as they believe first and foremost the Corporation should seek to recruit those individuals who are most qualified for the particular position, regardless of personal characteristics. The Board and the CGC, however, do monitor the number of women in executive officer positions and do consider gender diversity in making executive officer appointments to ensure a level of diversity in the organization. As of December 31, 2016, there were two executive officers of the Corporation who were women, representing 13% of the total number of executive officers (15) as of such date.

4. Board Communication with Stakeholders

The Board has reviewed and approved the Corporation's Disclosure Policy. The Board or an appropriate committee of the Board reviews the Corporation's major communications to shareholders and the investing public, including quarterly and annual financial statements, quarterly and annual management's discussion and analysis, proxy circulars, annual information forms and prospectuses.

The Board believes that management should speak for the Corporation in its communications with the investment community, the media, customers, suppliers, employees, governments and the general public. If communications from stakeholders are received by the Chairman or other individual directors, management is informed and consulted to determine an appropriate response. Where appropriate, communications sent to management are reported to the Board.

5. Corporate Governance
The CGC is responsible for developing and recommending improvements to corporate governance guidelines, policies and mandates for implementation by the Board.
6. CEO
The CEO's prime responsibility is to lead the Corporation by providing strategic and operational direction for the growth and profitable operation of the Corporation. The CEO's duties are defined in a document that describes his role and responsibilities, including general management and oversight of the business, annual and strategic planning, human resources and personnel, succession planning and communications. The CEO reports to the Board and is expected to ensure that the Board is fully informed of the progress and issues involving the business. The CEO must also seek approval for any matter for which he has not been delegated authority.

BOARD ORGANIZATION AND MEMBERSHIP

1. Chairman of the Board
An independent director serves as non-executive Chairman of the Board. The Board has approved and from time to time reviews the Chairman's responsibilities and accountabilities, which are not written. They include:
 - Chairing shareholder meetings and board meetings including *in camera* meetings of independent directors;
 - Ensuring the effectiveness of the Board and board meetings by overseeing the development of agendas and distribution of materials and information to directors;
 - Ensuring the effectiveness of the Board and individual directors by conducting assessments and evaluations;
 - Fostering an effective relationship between management and the Board; and,
 - Assisting in the review and monitoring of strategies, plans and policies of the Corporation.
2. Board Size and Selection of New Director Candidates
The maximum number of directors permitted by the Corporation's articles is 18; the minimum is eight. The Board is authorized to establish the number of directors within that range. Subject to rights to nominate directors under the Governance Agreement and the Amended Governance Agreement described below, the CGC manages the process of new director nominations. There are currently nine directors and nine directors are being nominated at this annual meeting of shareholders, a number the Board believes is within an appropriate level.

Governance Agreement

The Corporation entered into amended and restated governance agreement between with MCI and Mr. Michael H. McCain, the Company's President and Chief Executive Officer (together, the "McCain Holders"), dated February 21, 2017 (the "Amended Governance Agreement") which amends and restates the original governance agreement (the "Governance Agreement") entered into on July 28, 2011 with Michael McCain and MCC, a company controlled by the Wallace McCain family.

The Amended Governance Agreement provides, among other things:

- (i) The McCain Holders will continue to have the right to nominate that number of directors of the Corporation proportionate to their ownership interest as provided for in the Governance Agreement, however, the Amended Governance Agreement now caps the number of nominees of the McCain Holders so that, regardless of the McCain Holder's ownership interest, the Board will consist of a majority of independent directors nominated by the CGC.
- (ii) All directors nominated by the CGC will continue to be, except in certain circumstances, directors independent of the Corporation and the McCain Holders.
- (iii) The McCain Holders are prohibited from acquiring beneficial ownership of, or control or direction over, more than 45% of the outstanding voting shares of the Corporation (calculated on a modified fully diluted basis) except as a result of the exercise of rights to acquire shares granted under the Corporation's equity compensation plans, actions taken by the Corporation such as an issuer bid, or by way of a permitted take-over bid by the McCain Holders. A permitted take-over bid for purposes of the Amended Governance Agreement is one that is for 100% of the shares not already owned by the McCain Holders and which is otherwise in compliance with applicable law. A partial

bid (which may have qualified as a permitted bid under the Corporation's shareholder rights plan) will not constitute a permitted take-over bid for purposes of the Amended Governance Agreement.

- (iv) The McCain Holders have agreed that they will not transfer beneficial ownership of, or control or direction over, the outstanding shares held by them to any other person who after the transfer would own 20% or more except in specified circumstances, including pursuant to a take-over bid for 100% of the shares of the Corporation or pursuant to certain permitted estate planning transactions. Eligible transferees under these estate planning transactions can become parties to the Amended Governance Agreement and succeed to the rights and obligations of the McCain Holders under the Amended Governance Agreement.
- (v) The McCain Holders have agreed that they will not enter into lock-up agreements in respect of an acquisition of their shares, except certain permitted lock-up agreements that allow the McCain Holders to terminate their obligations thereunder in order to accept a higher price available for their shares that is higher by a specified percentage pursuant to another transaction.
- (vi) The Corporation has agreed that it will not put the shareholder rights plan of the Corporation to shareholders for reconfirmation at the Company's annual meeting in 2017 (and accordingly, the shareholder rights plan will expire in accordance with its terms at the termination of the meeting to which this Circular relates). Furthermore, the Corporation has agreed that it will not adopt a new rights plan, by-law or amend an existing by-law or charter provision, or enter into any contract that would reasonably be expected to limit, restrict, delay or impair the exercise of the rights of the McCain Holders under the Amended Governance Agreement except in certain circumstances.

The Board determined that it was in the best interests of the Corporation to amend and restate the original governance agreement in order, (i) to allow the Corporation's shareholder rights plan to expire in accordance with its terms and to eliminate impediments to the accumulation of shares by third parties, (ii) upon the expiry of the Corporation's shareholder rights plan, to regulate in a similar manner dispositions by Michael H. McCain and MCI of their shares and to establish a limit on ownership by MCI and Michael H. McCain of shares and rights and entitlements to acquire shares at 45%, (iii) to ensure that the Board will consist of a majority of independent directors nominated by the CGC, (iv) to give the Board flexibility with respect to share issuances and repurchases and generally with respect to capital allocation decisions, and (v) to address potential intergenerational transfers of the McCain family shareholdings. The Amended Governance Agreement was approved by the independent directors of the Corporation and was not entered into in response to any proposed or pending transaction or material event.

The CGC maintains a list of skills for new candidates to guide it in the search for and selection of new directors. The CGC solicits the names of potential candidates from other directors and adds the names of potential candidates who meet the Board's needs to a list of qualified candidates from which nominees are selected. In 2013, the CGC recommended and the Board approved the adoption of term limits, both age and service, as a means of ensuring continual board renewal.

3. Independence of Directors

The Board has adopted a policy requiring a majority of the directors to be independent. It defines "independent" to mean a director who is not a member of management and is free from any interest and any business, family or other relationship which could or could reasonably be perceived to materially interfere with the director's ability to act in the best interests of the Corporation. The Board has concluded that a director who is otherwise not related to the Corporation or its management will be considered to be independent notwithstanding the presence of a relationship with any of its shareholders. The Corporation does not have a controlling shareholder.

A director is not considered to be independent if the director does not meet the definition of director independence under applicable securities laws for the purpose of AC membership. The CGC has been delegated the responsibility to assess director independence. Annually, it delivers a report on director independence to the full Board.

For the 2017 annual meeting, under the Governance Agreement McCain Capital Inc. has elected to nominate three directors who are Mr. Michael H. McCain, Mr. Ronald G. Close and Mr. William E. Aziz. While nominated by MCI, the CGC has concluded that neither Mr. Ronald G. Close nor Mr. William E. Aziz have any relationship with MCI other than as a director of the Corporation and accordingly are independent directors.

Set forth below is a summary indicating the current directors of the Corporation who are considered “independent” and who are considered “not independent”, along with the reasons why the latter is not considered independent.

Name	Independent of Corporation	Relationship Affecting Independence
W.E. Aziz	Yes	
W.G. Beattie	Yes	
R.G. Close	Yes	
D.L. Emerson	Yes	
J.M. Fraser	Yes	
J.A. Lederer	Yes	
J.P. Olson	Yes	
C.M. Stephenson	Yes	
M.H. McCain	No	President & CEO

4. Term Limits for Directors

The Board believes that the advantages that accrue from experience and long service on the Board need to be balanced against the benefits of renewal. Accordingly, the Board has adopted term limits for its directors. No candidate will be nominated for election at a meeting if he or she has completed 15 years of continuous service on the Board or has reached 75 years of age. The restriction does not apply to a candidate for election to the Board who is nominated under the Governance Agreement with the Corporation. (See page 13.)

5. Composition of the Board

The CGC reviews the competencies, skills and personal qualities of candidates to be considered for nomination to the Board. The objective of this review is to maintain a Board composition that provides the best mix of skills and experience to provide for the overall stewardship of the Corporation. The CGC takes into account the desirability of maintaining a reasonable diversity of personal characteristics such as age, gender, geographic residence and origin. In response to the capital markets’ desire for more clarity and information, the Board has adopted a policy regarding diversity including gender diversity which is set out below. However, all directors must possess the highest personal and professional ethics, integrity and values and be committed to representing the long-term interests of the shareholders. They must also have an inquisitive and objective perspective, practical wisdom and mature judgment. Each director should also have outstanding ability in his or her individual fields of expertise and be able to devote necessary time to Board matters. Neither the Board nor the CGC have established a specific target for the number of women directors on the Board as they believe first and foremost that the Corporation should seek the most qualified directors regardless of personal characteristics. Currently, there are two women directors on the Board, representing 22% of the number of directors currently and 22% of the number of nominees.

Diversity Policy

The Board of Directors of Maple Leaf Foods Inc. strongly supports the principle of boardroom diversity, of which gender is one important aspect. The Board’s aim is to have a broad range of approaches, backgrounds, skills and experience represented on the Board and to make appointments on merit and against objective criteria, including diversity. Board and committee members engaged in nominations are to conduct searches for potential nominees so as to put forward a diversity of candidates including women candidates.

The Board seeks to ensure that its directors possess certain specific skills that assist the Board in performing its functions of overseeing the conduct and operations of the Corporation. These skills are in addition to the personal and other characteristics listed above. These skills are set out in Table 2 below.

TABLE 2 – DIRECTORS' SKILLS MATRIX

The Board is of the opinion that the directors being nominated possess the necessary mix of skills and experience to ensure that as a group, they can fulfill the Board's mandate and contribute to the success of the Corporation. The process of Board renewal is expected to continue, however, and the Board may, if suitable candidates are identified, appoint additional directors before the 2018 annual meeting.

6. Individual Voting for Directors

The Corporation has adopted a policy for individual director voting. Under the policy, if a director is not elected by at least a majority (50% + 1 vote) of the votes cast with respect to his or her election at a meeting of shareholders (other than at a contested shareholder meeting), the director shall tender his or her resignation to the Board immediately following the meeting. The Board shall determine whether or not to accept the resignation within 90 days of the relevant shareholders meeting. The Board shall

accept the resignation absent exceptional circumstances. The resignation will be effective when accepted by the Board. The director who tenders his or her resignation will not participate in any meeting of the Board at which the resignation is considered. A press release disclosing the Board's determination (and the reasons for rejecting the resignation, if applicable) shall be promptly issued following the Board's determination. For purposes of the policy, the Corporation intends to use proxies validly deposited in advance of the particular meeting in order to determine whether the particular approval threshold has been met unless a ballot on the election of directors is taken at the particular meeting.

The Board believes that basing this policy on votes represented by proxies deposited in advance is appropriate for the Corporation in circumstances where no ballot is taken with respect to the election of directors at the meeting. In May 2016, over 99.99% of all common shares represented at the annual shareholders' meeting were represented by proxies deposited in advance.

Each of the directors listed as nominees in the management proxy circular dated March 28, 2016 were elected directors of the Corporation until the next Annual Meeting.

The results of the vote for the election of directors at the 2016 Annual and Special Meeting were as follows:

Names of Directors	Number of Shares Voted For ⁽¹⁾	Percentage of Shares Voted For ⁽¹⁾	Number of Shares Withheld from Voting ⁽¹⁾	Percentage of Shares Withheld from Voting ⁽¹⁾

(1) As the vote for each motion was taken by a show of hands, the number of votes disclosed reflects only those proxies received by management in advance of the meeting. The results do not reflect spoiled and unmarked proxies.

7. Director Orientation and Education

The CGC oversees an orientation and education program for new directors and ongoing educational opportunities for all directors.

The new director orientation includes information about the Corporation and its operations and the structure of the Board and its committees. Each new director meets one-on-one with senior management of the Corporation's operational and administrative areas to enable the director to learn about the various processes and operations of the Corporation. Through these meetings, new directors also gain an appreciation of the skills and competence of the management team. Prior to nomination, candidates for nomination are provided with an explanation of the workload and time commitment required.

The full Board is given presentations and reports from the Corporation's operating units and administrative areas on a recurring basis. Special presentations to the Board and to its committees are also made, as appropriate, regarding changes and proposed changes in laws and regulations or other issues relevant to the Corporation or the industry in which it operates.

Between July and December 2016, Ms. Stephenson and Mr. Lederer each participated in four days of orientation. The orientation included tours of the Brandon, Manitoba primary pork processing plant and processed meats plant in Hamilton, Ontario, the Corporation's two largest plants. The orientation also

included information sessions on strategic planning, investor relations, financial review, the supply chain network, the pork value chain, human resources, sustainability, the manufacturing network, marketing and innovation, and a customer overview.

BOARD COMMITTEES AND TERMS OF REFERENCE

1. Board Committees

The Board has passed a general policy respecting the composition, appointment and practices of each committee of the Board which, among other requirements, provides that:

- a) The Chairman of the committee shall be the chairman of any meeting of the committee. If the Chairman of the committee is not present at any meeting of the committee, the Chairman of the meeting shall be chosen by the committee from among the members present; and,
- b) Upon the request of the auditors of the Corporation, the Chairman of the AC shall convene a meeting of the AC to consider any matters the auditors believe should be brought to the attention of that AC and to the attention of the Directors or shareholders.

Each committee's charter requires the committee to report to the Board after each meeting through its Chair. Additionally, the by-laws of the Corporation provide that the Chair of a committee shall not have a second or casting vote in the event of a tie. The Board has determined that there should be four standing Board committees:

- (i) the AC;
- (ii) the CGC;
- (iii) the HRCC; and
- (iv) the SSC.

This structure may change from time to time as the Board considers which of its responsibilities can best be fulfilled through a detailed review of matters at the committee level. Each committee operates according to a Board-approved written charter outlining its duties and responsibilities. A written set of procedures and policies also defines the role of each committee's chair.

The Board remains responsible for matters assigned to the committees and the responsibility of the committees is to assist the Board in discharging those responsibilities. Each committee is to review and make recommendations to the Board with respect to the approval of matters, except as explicitly provided in the charter of the committee or a resolution of the Board.

2. Membership of Committees

The Board has determined that each committee shall be composed entirely of independent directors. In addition, all members of the AC shall be financially literate within the meaning of applicable securities laws.

Members of the committees hold office at the pleasure of the Board. Each year after receipt of recommendations from the CGC, the Board appoints the members of the committees, fills vacancies as necessary and generally appoints the chair of each committee.

The committees' current membership and Chair and the year the member was first appointed (as a member or Chair) are as follows:

AC		SSC	
W.E. Aziz (Chairman since 2015)	2014	J.P. Olson (Chairman since 2015)	2015
R.G. Close	2015	W.G. Beattie	2014

3. Committee Mandates

In summary, the responsibilities and functions of each committee are as follows.

AC

a) To assist the Board by reviewing the adequacy and effectiveness of financial and reporting processes including:

- (i) systems of internal and financial controls;
- (ii) selection of accounting policies and principles;
- (iii) preparation and audit of financial reports;
- (iv) review of financial risk management functions;
- (v) oversight of the stewardship of the Corporation's pension plan funds and report to the Board; and,
- (vi) monitoring of certain other financial matters.

- b) To oversee and monitor the appointment, independence and performance of the internal and external auditors.
- c) To establish and monitor procedures for handling concerns and complaints related to financial matters.
- d) To approve, on behalf of the Board, certain financial and other matters as delegated by the Board.
- e) To review and make recommendations for approval of annual financial statements, management's discussion and analysis of the financial condition of the Corporation and the results of its operations for release to shareholders.
- f) To review and approve the interim financial statements, management's discussion and analysis of the financial condition of the Corporation and the results of its operations for release to shareholders.
- g) To conduct independent investigations into matters that may come under its scope of responsibilities.

CGC

- a) To assist the Board in matters pertaining to the Corporation's approach to governance issues, the organization and staffing of the Board, the organization and conduct of Board meetings and the effectiveness of the Board in performing and fulfilling its responsibilities.
- b) To assist the Board in matters pertaining to the delegation of responsibilities to Board committees by reviewing annually the terms of reference for Board committees and making recommendations to the Board for any amendments deemed necessary or advisable, including recommending directors for membership to each Board committee.

- c) To assess the independence of individuals nominated for election to the Board and the committees of the Board and the financial literacy of members of the AC.
- d) To assess the effectiveness of the Board, individual directors and committee members.

SSC (formerly EHSC)

- (a) To review, on behalf of the Board, the Corporation's progress in meeting its objective of being a sustainable company including the areas of Nutrition and Health (including Food Safety); People and Communities (including employee health and safety and community involvement); and, Animal Care and Environmental Sustainability (including compliance), hereinafter referred to as the "sustainability objectives".
- (b) To assist the Board in ensuring that (i) the Corporation has appropriate environmental, health and safety and animal care policies to meet or exceed legislative and regulatory requirements and industry standards in those areas as well as the sustainability objectives, (ii) risks relating to matters outlined in this charter receive oversight by being periodically assessed and addressed in the appropriate policies, and (iii) the Corporation has and maintains management systems to implement and monitor compliance with and performance against such policies and strategies.

The Committee's name, previously the Environment, Health and Safety Committee, was changed to the Safety and Sustainability Committee as it has been assigned oversight responsibility for the Corporation's sustainability objectives in the areas of advancing nutrition and health, valuing the Corporation's people and communities, treating animals well and eliminating waste. The Committee's charter was amended to codify these elements.

HRCC

- a) To review, develop and propose to the Board the necessary policies and procedures to ensure that all employees of the Corporation will be fairly and competitively compensated. Special attention is devoted to the executive group. These issues are described in detail commencing on page 32.
- b) To evaluate annually the performance of the CEO against predetermined goals and criteria and to recommend to the Board the amount of compensation to be paid to the CEO.
- c) To review annually the CEO's evaluation of the performance of the other executive officers of the Corporation and its major subsidiaries and the CEO's recommendations with respect to the amount of compensation to be paid to the other executive officers.
- d) To assist the Board in ensuring that appropriate human resource development, succession planning and performance evaluation programs are in place and operating effectively.
- e) To review and report to the Board on the pension and retirement benefits to employees.

4. Special Purpose Committees

The Board establishes special purpose committees as required.

BOARD MEETINGS AND MATERIALS

1. Functioning of the Board

The CGC with the Chairman of the Board is responsible for assessing and recommending changes to ensure the Board carries out its objectives effectively and operates independently of management.

2. Meeting Agendas, Materials and Attendance of Non-Directors

Procedures are in place governing the conduct of meetings including, among other things, agendas, distribution of briefing materials and attendance of non-directors at meetings. These procedures are followed to promote informed and effective consideration of the matters on the agenda. Senior managers attend each Board meeting to provide information and opinions to assist the directors in their deliberations.

3. *In camera* Meetings

The independent non-management directors meet *in camera* with the non-executive Chairman acting as chairman at all meetings, including non-regularly scheduled meetings conducted by telephone. Each Committee also holds an *in camera* session at every meeting. The AC meets *in camera* at least twice a year with each of the internal and external auditors to maintain open and unfettered communication with those groups.

DIRECTOR COMPENSATION AND SHARE OWNERSHIP

1. Director Compensation

The Board has determined that the directors should be compensated appropriately considering the time commitment, degree of professional and personal responsibility and current trends in director compensation.

The CGC reviews the compensation of the directors every two years. The review includes consideration of all forms of compensation that a director receives, directly or indirectly. The fee schedule for director fees was amended effective January 1, 2016 (see page 24) to increase the annual director's retainer to \$150,000 per annum. Director compensation will next be reviewed in 2017 with changes, if any, to be effective January 1, 2018.

2. Share Ownership by Directors

The Board has determined that it is appropriate to align the interests of the directors receiving fees (excluding those who are full-time employees of the Corporation) with those of shareholders by requiring them to own a minimum number of shares of the Corporation or equivalent units. Effective February 25, 2013, each director was required to hold a minimum number of shares of the Corporation or equivalent units having a value equal to three (3) times their annual retainer. Such holdings are to be acquired within five years of the director's appointment, the adoption of the policy or any increase in the amount of the retainer. For this purpose, ownership could take the form of actual shares or equivalent units acquired under the 2013 DSU Plan (described on pages 25 and 57 to 59 inclusive). This is described in detail under Directors' Compensation commencing on page 27.

BOARD'S RELATIONSHIP WITH MANAGEMENT

1. Board's Relationship with Management

Management is encouraged to make appropriate use of the Board's skills before making decisions on key issues. The CGC regularly reviews and assesses the Board's relationship with management.

2. Limits to Management Authority

As required by the Corporation's by-laws, the Board has established limits on management's approval authority depending on the nature and size of a proposed transaction. These limits provide for some flexibility for approvals within approved budgets. However, the guidelines require that transactions outside defined limits be approved by the Board or an appropriate committee. The limit is generally \$5.0 million.

3. Evaluation of the CEO

The HRCC conducts an annual assessment of the performance of the CEO against the goals and objectives for the Corporation that have been established by the Board. The Chairman of the HRCC reviews the assessment with the full Board.

4. Director Access to Management

All directors have open access to the Corporation's senior management for relevant information. Individual directors are encouraged to make themselves available for consultations with management outside Board meetings to provide specific advice and counsel on subjects where the directors have special knowledge and experience.

The directors also receive educational presentations throughout the year from management concerning the Corporation's business, the industry and its operations. Ms. Stephenson and Mr. Lederer, who were

elected to the Board in 2016, underwent an orientation process delivered primarily by management, which is described above under Director Orientation and Education.

DIRECTOR RESPONSIBILITIES AND PERFORMANCE

1. Director Responsibilities

Directors are expected to use their skill and experience to provide oversight to the business of the Corporation. Directors have a duty to act honestly and in good faith in the best interests of the Corporation and to exercise the care, diligence and skill of a reasonably prudent person in comparable circumstances.

Directors are expected to attend all Board and committee meetings in person or by telephone. In circumstances where a director is unable to do so, he or she has the opportunity to communicate his or her views, which are then shared with the full Board. A summary of the attendance record of each director at Board and committee meetings held in 2016 is detailed in Appendix A. The CGC reviews director attendance annually, taking note of any exceptional circumstances accounting for director absences. In 2016, attendance at all regularly called meetings by all incumbent directors nominated for re-election at the 2017 Annual and Special Meeting averaged 96%. The Committee was satisfied with the attendance record of each director nominated for re-election.

2. Outside Advisors for Individual Directors

The Board has determined that any director who wishes to engage, at the expense of the Corporation, a non-management advisor to assist on matters involving his or her responsibilities as a director should obtain authorization from the CGC. This approval requirement does not limit the authority of the AC to engage consultants or advisors on matters of financial reporting or the authority of the HRCC to engage compensation consultants. Detailed information concerning compensation consultants who have been engaged and their responsibilities is contained in the Executive Compensation portion of this Circular on page 34.

3. Assessment of Board and Individual Director Performance

The CGC is responsible for periodic assessments of the overall performance and effectiveness of the Board and each committee, the Chairman of the Board, each committee chair and each director. The CGC is also responsible for reporting these assessments to the Board and recommending changes to the charter. The objective of the assessments is to ensure the continued effectiveness of the Board in the execution of its responsibilities and to contribute to a process of continuing improvement.

Annually, each director completes a confidential survey of the effectiveness of the Board as a whole, the committees they sit on, the directors as a group and their individual effectiveness. The results of the survey are tabulated and all comments made available to the CGC on a non-attributed basis. The information is used to assess the effectiveness of the Board's procedures and assist the CGC in making changes.

The Chairman of the Board also makes an annual assessment of the contribution and performance of the individual directors, which is reviewed with the CGC. Individual directors also complete a self-evaluation questionnaire biannually focused on criteria that the CGC deems significant to director effectiveness. The Chairman of the Board meets with each individual director to review the self-evaluation. The interviews with directors are constructive and are believed to lead to improvements in each director's individual performance and contribution to the Board. Following completion of the evaluations and interviews, a summary of the aggregate results is prepared for discussion by the CGC. The results are also reported to the full Board together with the recommendations of the CGC for changes to Board practices to advance director effectiveness.

ETHICS AND CONFLICTS OF INTEREST

1. Ethical Behaviour

The Board takes all steps to assure itself of the ethics and integrity of the CEO and the executive officers and ensure that they establish an appropriate “tone-at-the-top” for ethical conduct.

2. Code of Business Conduct

The Board expects directors, officers and employees to act ethically at all times and to acknowledge their compliance with the Corporation’s Code of Business Conduct (the “Code”). Every year, every employee is required to reaffirm in writing his or her adherence to the Code and the CGC monitors the results of the signoff. New employees are given a copy of the Code upon joining the Corporation. Copies are available from the Corporation and at www.mapleleaffoods.com. In February 2017, the degree of compliance with the requirement to reaffirm an employee’s adherence to the Code was 97%.

An Ethics Committee composed of management personnel reviews and addresses issues of interpretation of the Code raised by employees and proposes changes to the Code. The Ethics Committee reports on its activities to the CGC. The AC reviews reports received through the “whistle-blower” hot line (see “Whistle-Blower Procedures” below) and reviews reports from internal audit on compliance with the Corporation’s business expense reimbursement policy by the senior executives. Release from the application of a specific part of the Code for an officer or a director may only be given by the CGC.

3. Whistle-Blower Procedures

The Corporation has established a whistle-blower hotline named the Ethics Line. The Ethics Line provides employees with an avenue to raise concerns such as fraud, accounting irregularities, kickbacks, product tampering or other issues. The process was designed to reassure complainants that they will be protected from reprisals or victimization when reporting concerns in good faith. All calls are recorded and logged at an independent call centre, and the incidents reported are tracked and resolved using the case management system. The AC receives and reviews reports on the calls and their outcome on a quarterly basis.

4. Conflicts of Interest

Directors have the statutory responsibility to disclose all actual or potential conflicts of interest, recuse himself or herself from any discussion on such matters and generally to refrain from voting on matters that could affect his or her personal, business or professional interests.

DIRECTORS' COMPENSATION

The Corporation does not pay compensation to directors who are full-time employees of Maple Leaf Foods, any of its subsidiaries, or shareholders holding more than 20% of the issued shares of the Corporation. The compensation paid for service of non-employee directors in 2016 totaled \$1,547,299. Directors' compensation for 2016 is set out in Table 4.

Generally, the CGC reviews director compensation every two years and makes recommendations for adjustments to the Board. Fees for Board service, other than for service on special committees, had not been adjusted since January 1, 2010. In late 2015, after reviewing bench mark data, the CGC recommended and the Board approved an increase in the annual retainer from \$120,000 to \$150,000 per annum effective January 1, 2016. No other changes were made.

All fees are denominated in cash and are payable in cash. Under the Corporation's current Share Purchase and Deferred Share Unit Plan ("2013 DSU Plan"), each director may elect to receive DSUs or actual shares for the net amount after tax withholding instead of cash. The election available to directors under the 2013 DSU Plan is described starting on pages 25 and 57.

DSU Plan

The Corporation maintains a Share Purchase and Deferred Share Unit Plan to provide eligible directors with the opportunity to participate in the long-term success of the Corporation and to promote a greater alignment of interests between directors and shareholders. Under the DSU Plan, eligible directors can elect to receive their retainer and fees in the form of DSUs or as common shares of the Corporation under the 2013 DSU Plan. Distributions to directors on maturity may be in the form of common shares of the Corporation issued from treasury or purchased by the Corporation on the TSX.

If an eligible director elects to receive his or her retainer and fees as common shares, the Corporation purchases shares on the TSX at market prices quarterly on predetermined dates on behalf of the participating directors. The Corporation arranges the purchase of the shares and is responsible for commissions and any administration fees. Shares acquired for an eligible director shall be registered in such name as the director may direct.

If an eligible director elects to receive his or her fees and retainer in the form of DSUs, each DSU has a value equal to the market value of one common share of the Corporation at the time the DSU is credited to the director. The value of a DSU when redeemed for cash is equivalent to the market value of a common share of the Corporation at the time of redemption. DSUs attract dividends in the form of additional DSUs at the same rate as dividends on common shares of the Corporation. An eligible director cannot redeem the DSUs in cash until he or she ceases to be a member of the Board and then must do so within approximately one calendar year (exactly six months in the case of U.S. directors in respect of units earned before 2014) of leaving the Board.

The 2013 DSU Plan may be amended, suspended or terminated by the Board. However, no amendment, suspension or termination of the 2013 DSU Plan may adversely affect any previously granted DSUs without the consent of the affected director. If the Board chooses to terminate or suspend the 2013 DSU Plan, no new DSUs will be issued, but previously credited DSUs will remain outstanding (but are not entitled to dividends except at the discretion of the Board) and shall be paid out in accordance with the terms of the 2013 DSU Plan.

Tables 6 and 7 contain the details of the number of units held by directors at December 31, 2016 and Table 8 provides a comparison of the number and market value of common shares and DSUs held by the directors as at March 15, 2016 and March 15, 2017.

Compliance with Equity Ownership Guidelines

The Board requires directors receiving fees to own and hold a minimum number of shares of the Corporation or equivalent units equal to three (3) times the annual retainer for directors. With the increase in the annual retainer effective January 1, 2016 to \$150,000, the holding requirement in dollars is \$450,000. Ownership may take the form of actual shares or equivalent units acquired under the 2013 DSU Plan. The value of any actual shares for this purpose is the market value or the cost of the shares, whichever is greater. DSUs are valued at the greater of the current share price and the amount of fees contributed to the plan. The guideline holdings are to be acquired within five years of the director's appointment or any increase in the amount of the annual retainer, whichever is later. Table 9 shows each director's compliance with the equity ownership guidelines. All directors are in compliance.

(1) The information given is as of March 15, 2017. The closing price of the Corporation's stock on March 15, 2017 was \$31.20.

(2) All directors exceed the required holding other than Ms. Fraser and Ms. Stephenson, each of whom are within the permitted acquisition period. A director has five years from his or her appointment to comply with the equity ownership guidelines. Ms. Fraser has until the fifth anniversary appointment to the Board in 2019 and Ms. Stephenson has until the fifth anniversary appointment to the Board in 2021 to acquire sufficient shares or share units to fulfill the equity ownership guidelines.

(3) The ownership guidelines do not apply to directors who are employees of the Corporation and who do not receive directors' fees.

LETTER TO SHAREHOLDERS

From the Chair of the Human Resources and Compensation Committee

To Our Fellow Shareholders:

Executive compensation at Maple Leaf Foods is determined by the Board upon the recommendation of the Human Resources and Compensation Committee ("HRCC" or the "Committee"), made up of four independent Board members including myself as Chair.

In 2016, Maple Leaf Foods completed its first full year of operations as a focused, modernized consumer protein company following the successful completion of its ambitious seven-year strategic transformation project. The Corporation is now one of the most technologically advanced, scale prepared meats networks in North America. Shareholders will recall that this enormous repositioning and restructuring of the Corporation involved divestitures of non-core assets, the construction and commissioning of a state of the art 400,000 sq. ft. processed meat manufacturing facility and a realignment of the management structure to reflect the Corporation's leaner, more efficient structure and operations. The Corporation is now realizing improved EBITDA margins and sustained profitability and remains well positioned for growth. The Maple Leaf Foods compensation programs are designed to attract and retain the talent required, compensate executives for performance and align incentives to the short and long term financial objectives of the Corporation and the interests of its shareholders.

Compensation for senior executives consists of base salary, short term incentive plan ("STIP") payments, long term incentive plan ("LTIP") awards, and benefits and retirement programs.

External benchmarking is conducted annually for salaried employees to ensure compensation levels are market competitive within an appropriate peer group. An appropriate comparator group is used to benchmark the compensation of the CEO, COO, CFO and other Named Executive Officers. For the balance of the Senior Leadership Team, compensation is benchmarked to salary surveys published by Towers Watson and Aon Hewitt.

STIP payouts for senior executives are based entirely on performance targets for adjusted Earnings Before Tax ("EBT"), as a means to reinforce accountability for execution of the business plan. In 2016, the EBT target was overachieved by 16%, resulting in a STIP cash payment between target and maximum performance. In addition to the cash STIP payment, the Corporation committed to make a one-time Restricted Share Unit ("RSU") award equal to 50% of the team portion of the STIP award which was conditional on achieving the EBT target and the achievement of certain 2016 cost control targets (which were achieved). These shares vest over a two-year period, to be distributed in early 2019. In December 2015, the Board approved a one-time share award in respect of 2015 in recognition of the successful completion of Maple Leaf Foods' strategic transformation. The amount of such award was approximately equivalent to the team component of the 2015 STIP had the target performance been achieved in the year. For the Senior Leadership Team (including the CEO, CFO and other Named Executive Officers) ("SLT"), 25% of the RSU award vested immediately with the balance vesting in March 2017 and March 2018 in equal amounts, subject to achieving specific EBITDA margin targets in 2016 and 2017, respectively. The 2016 targets have been met.

The goal of the Corporation's Long Term Incentive Plan ("LTIP") is to align executives to shareholder interest and focus attention on long term performance. Awards are made at the start of the year and include options, time-based RSUs and performance-based share units ("PSUs"). Options and RSUs are time vested over three years. The vesting of PSUs is based solely on achieving performance targets over a three-year period. Starting in 2016, the performance metric is based entirely on the achievement of a Return On Net Assets ("RONA") target. We believe that a RONA target is the best measure of assessing overall performance.

In 2016, the Committee extended the Compensation Recoupment Policy which provides that, at the discretion of the HRCC, current and former members of the SLT can be required to repay or return any

incentive compensation received where there is a restatement of the Corporation's financial results that would have resulted in a lower amount of incentive pay. While the policy has been in place since 2009, it applied solely to annual STIP payments.

Overall, the Committee believes that the executive structure and compensation programs in place are appropriate. However, the Committee will continue to evaluate the effectiveness of the compensation structure and programs and will, from time to time, make the changes that may be necessary to achieve the Corporation's objectives.

The Committee introduced an annual advisory vote on executive compensation in 2011 to encourage shareholders to provide input on our approach to executive compensation. At last year's AGM, almost 97% of the votes registered voted "for" the "say-on-pay resolution". I encourage you to register your vote on the "say-on-pay" resolution and to continue providing us with your considered feedback.

On behalf of the Committee and the entire Board, thank you for your continued investment in Maple Leaf Foods.

Jean M. Fraser, Chair
Human Resources and Compensation Committee
March 2017

General

The HRCC of Maple Leaf Foods has authority over Maple Leaf Foods' compensation strategy and individual compensation packages for members of the SLT, excluding the five Named Executive Officers (the "NEOs") which includes the CEO, the CFO and the three most highly paid executives other than the CEO and CFO. Compensation matters in respect of the NEOs require approval by the full Board of Directors. To fulfill its obligations, the HRCC considers recommendations from the CEO, guidance provided by independent advisors and the practices and policies of peer companies. All Board discussions related to compensation decisions are held *in camera*; directors who are members of management are not present.

Human Resources and Compensation Committee

The HRCC consists of four independent directors: William E. Aziz, John A. Lederer, Carol M. Stephenson and Jean M. Fraser, the Committee Chair. The members of the Committee were appointed based on their independence and experience in compensation matters. Greg A. Boland was a member of the HRCC from 2011 until his resignation from the Board on November 14, 2016. Claude R. Lamoureux was a member until his retirement from the Board on May 4, 2016.

Experience of the HRCC Members

Each HRCC member has previous experience either as a director or as a CEO in formulating, reviewing and/or approving executive compensation policies, strategies and programs. They bring this breadth of experience to the evaluation and development of Maple Leaf Foods' compensation policies and practices.

HRCC member experience includes:

William E. Aziz

Mr. Aziz has been a member of the HRCC since 2014. He is a member of the Human Resources Committee of the \$84 billion Ontario Municipal Employees' Retirement System (OMERS). In addition, he has prior relevant experience as the Chair of the Governance and Nominating Committee at Tecumseh Products Company in Ann Arbor, Michigan, where executive compensation was considered and has acted in senior executive roles where he has dealt extensively with issues of compensation, transition, succession and governance.

Jean M. Fraser

Ms. Fraser first joined the Committee as Chair in April, 2015. She is a retired corporate/mergers and acquisitions partner and former managing partner of one of Canada's leading law firms. She has extensive experience in advising the boards and board committees of public companies on governance matters, including compensation structures. Ms. Fraser is a director and member of the Human Resources Committee and the Audit and Conduct Review Committee of Aviva Canada Inc. Her experience also includes advising on significant mergers and acquisitions, reorganization and capital markets transactions.

John A. Lederer

Mr. Lederer joined the Committee in May 2016. He has over 40 years of corporate and business experience. Mr. Lederer served as an advisor of US Foods, Inc. from July 2015 to January 2016, as the Chief Executive Officer and President of US Foods, Inc. from September 2010 to July 2015 and as the Chief Executive Officer and President of US Foods Holding Corp. from September 2010 until July 2015. From 2008 to 2010, he served as Chairman and CEO of Duane Reade, a privately held chain of retail pharmacies located primarily in the New York City area. In addition, Mr. Lederer joined Loblaw Companies Limited in 1976, served as its President from January 2001 to September 2006 and also held numerous other senior leadership positions. In these and other roles, he was responsible for operation, performance, innovation and growth of national and regional banners, businesses and divisions including review of executive compensation.

Carol M. Stephenson

Ms. Stephenson joined the Committee in May 2016. From 2003 to 2013 she was the Dean of the Ivey Business School at Western University. She was President and Chief Executive Officer of Lucent

Technologies Canada from July 1999 to February 2003. Prior to that, Ms. Stephenson held a number of executive positions with Bell Canada and BCE Media. From 1995 to 1999 she was Chief Executive Officer of Stentor Resource Centre. Ms. Stephenson serves on the compensation committees of Ballard Power Systems Inc., Intact Financial Corporation and chairs the compensation committee of General Motors Company. Ms. Stephenson's education and experience in executive compensation is extensive.

HRCC Mandate

The HRCC's mandate includes:

- Setting the overall compensation strategy for and approving compensation for senior executives forming the 15-member SLT;
- Making recommendations to the Board on the design and application of all elements of compensation;
- Making recommendations to the Board on compensation for the CEO, CFO and other NEOs;
- Ensuring compensation awards are implemented according to the design and intent of the strategy; and,
- Reviewing and approving key compensation and human resources policies.

COMPENSATION DISCUSSION AND ANALYSIS

This discussion and analysis aims to help readers understand how Maple Leaf Foods uses compensation to motivate and reward the NEOs. The NEOs, which include the CEO, CFO and the next three most highly paid executive officers, in 2016 were:

Position	Name	Years with the Corporation	Years in Position
Chief Executive Officer	M.H. McCain	22	18
Chief Financial Officer	D.K. Simpson	10	3
Chief Operating Officer	G. Maksymetz	26	3
SVP Operations & Chief Food Safety Officer	R.D. Huffman	8	3
SVP Supply Chain and Purchasing	R. Young	39	2

Compensation Philosophy

The Corporation's compensation package is designed to achieve four objectives:

- to attract and retain executive talent;
- to align individual performance with corporate goals and objectives;
- to align the motivations of executives with the best interests of shareholders; and,
- ultimately to reward executives for building sustainable shareholder returns.

The compensation package has four components, each with a different function:

1. Base salary;
2. An annual bonus or short-term incentive plan ("STIP");
3. A long-term equity-based incentive plan ("LTIP"); and,
4. Benefits and retirement programs.

The combination of fixed salary and variable incentives for each executive position reflects the capacity of the individual to influence business results over the short and long term; the more senior the position, the higher the proportion of compensation based on variable incentives and the more significant the portion of pay at risk. The CEO's compensation has the highest proportion of variable pay, given his role as strategic leader. The incentive package is also heavily weighted to the equity-based LTIP, which encourages long-term strategic thinking and alignment with shareholder interests.

The compensation of each executive is based on a comprehensive evaluation of performance. This includes an assessment of performance against business plan objectives as well as adherence to the Corporation's values. The executive team establishes objectives each year based on key strategic priorities for the business. Objectives apply to operating areas, functions and the Corporation as a whole, and become individual goals for the NEOs and other SLT members. Achieving these individual goals is a key factor in assessing individual performance and in aligning total compensation within market benchmark ranges. Achievement of these individual goals is not included in the formula for determining executive short-term incentive payout as it is for employees below the senior vice president level. For all members of the SLT including the NEOs, the STIP payout is based solely on achievement of the Corporation's overall business results.

Share Ownership Requirements

To align executive interests with shareholder interests, the Corporation has a policy requiring NEOs as well as all senior employees at the vice-president level and higher to hold a significant number of shares of Maple Leaf Foods. Under the policy, the shareholdings required (the "Ownership Requirement") is the number of shares the value of which is equal to a specified multiple of the executive's salary, ranging from one-half for vice-presidents to five for the CEO. Until the executive meets the Ownership Requirement, he

or she is required to retain 50% of the after-tax gain realized on the distribution or exercise of any LTIP awards in the form of shares ("Retention Requirement"). Only common shares satisfy the Ownership Requirement. Restricted Share Units ("RSUs") and options are excluded. Executives who have not met the Ownership Requirement are not permitted to sell any shares other than the shares received under the LTIP not required to be retained. Executives who have violated the Retention Requirement are disqualified from receiving additional LTIP grants.

After evaluating the Ownership Requirement and the impact of the Retention Requirement, the share ownership policy was amended in 2016 to remove the requirement to have met the Ownership Requirement within a seven (7) year period.

In May of each year share ownership is reported and compliance is assessed. In 2016, all NEOs were in compliance. NEO share ownership levels for those NEOs who remain actively employed by Maple Leaf Foods as of February 28, 2017 are set out in the table below.

Name	Position	Executive Personal Share Ownership			
		Actual Holdings		Holdings as a Multiple of Base Salary	
		Number #	Value ⁽¹⁾ \$ million	Actual	Policy Requirement
M.H. McCain	Chief Executive Officer	46,788,658	1,445.3	1,323.6X	5X
D.K. Simpson	Chief Financial Officer	73,198	2.3	4.6X	3X
G. Maksymetz	Chief Operating Officer	101,586	3.1	4.2X	3X
R.D. Huffman	SVP Operations and Chief Food Safety Officer	24,617	0.8	1.2X	1X
R. Young	SVP Supply Chain and Purchasing	160,937	5.0	7.7X	1X

Note:

(1) Actual holdings and values are based on the number of common shares held on February 28, 2017. On that date, the closing price was \$30.89 per share.

While only actual shares held qualify for purposes of the share ownership guideline, the equity component of the Corporation's long term incentive plans act in furtherance to the Corporations objectives of align the motivations of executives with interests of shareholders and reward executives for shareholder returns. The table below sets out the value of all share units, options and shares held of each executive at February 28, 2017.

in \$ millions	Non Executive Controlled Holdings ⁽¹⁾			Executive Controlled Holdings ⁽¹⁾		Total \$ millions ⁽³⁾	Multiple of Salary
	Unvested RSUs \$ millions	Unvested PSUs ⁽²⁾ \$ millions	Unvested Options \$ millions	Vested Options \$ millions	Actual Shares \$ millions		
M.H. McCain	4.6	7.4	5.2	28.4	1,445.3	1,490.8	1,365.3X
D.K. Simpson	0.7	1.2	0.9	0.6	2.3	5.7	11.7X
G. Maksymetz	1.2	2.2	1.3	4.0	3.1	11.8	15.9X
R.D. Huffman	0.4	0.9	0.5	1.7	0.8	4.4	6.8X
R. Young	0.4	0.9	0.5	2.1	5.0	8.8	13.7X

Notes:

- (1) "Executive Controlled" units and shares include actual shares personally held and vested in-the-money share options. Executives are permitted to sell personally held shares and may exercise options and sell the acquired shares at any time after the options vest, subject only to the trading blackouts and the requirements of the share ownership guidelines. Executives are not permitted to sell, exercise, or otherwise transfer any undistributed RSUs or PSUs and any unvested share options. Therefore, these unvested units and options are described as "Non Executive Controlled". RSUs and PSUs are distributed immediately after vesting. Options have a term of seven years but vest over three years in three equal annual installments.
- (2) Depending on performance between 0 and 2.0 shares or between 0 and 1.6 shares vest for each PSU granted with a target of 1.0 share. For purposes of the table above, the number of shares valued is:
 - (i) in respect of PSUs where the performance period is the 2016 financial year or any earlier year, the number of units valued is the number of shares expected to be distributed given actual performance; and
 - (ii) in respect of PSUs where vesting depends wholly or in part on a performance period after 2016, the target number of shares is valued.
- (3) The total includes the value of both Executive Controlled and Non Executive Controlled shares, RSUs and PSUs and in-the-money value of share options as at February 28, 2017 and using the closing share price of \$30.89 on that date.

PROCESS FOR DETERMINING COMPENSATION

The process for determining compensation begins with a review of market data provided by the HRCC's independent compensation consultant, Steven Hall & Partners, LLC. After consultation between the CEO and Maple Leaf Foods' Senior Vice President, People ("SVP, People") and having regard to the individual and team performance, the CEO makes recommendations to the HRCC on compensation for members of the SLT, excluding the CEO. Following discussion with the CEO, the HRCC then:

- Determines the compensation for the members of the SLT, excluding the NEOs; and
- Makes recommendations to the Board on compensation for the NEOs, including the CEO.

As part of the CEO compensation recommendation process, the HRCC evaluates the CEO's performance against the annual plan and strategic objectives and discusses the appropriate compensation *in camera*. The SVP, People may be present for part of that *in camera* meeting.

The HRCC also reviews all other matters related to employee compensation including pensions, benefits and incentive plans.

Reasonableness Test

The HRCC and the CEO conduct a reasonableness test of each NEO's total direct compensation, including base salary and incentive pay. The HRCC can increase or decrease compensation as it deems appropriate. It then reports the results of the reasonableness test and makes recommendations to the Board. This reasonableness test takes into account external market data, individual performance and internal equity within the peer group.

Risks Associated with Compensation Plans

The Board and the HRCC assess the compensation programs to ensure that they do not promote decisions or behavior not in the best interests of the Corporation. To avoid excessive costs to the Corporation and excessive compensation to executives, all annual bonuses have maximum payout amounts and the HRCC uses its independent compensation consultant to provide market data and counsel. All non-recurring, unusual or other items that impact earnings are considered when assessing performance and determining short-term and long-term incentive payments. NEOs and other members of the SLT may be required, at the discretion of the HRCC, to return incentive compensation if results are restated. (See "Recoupment Policy" on page 39.) In addition, executive interests are aligned with shareholder interests through the requirement to own a significant level of Maple Leaf Foods shares. (See "Share Ownership Requirements" starting on page 32.)

Independent Advisors

The HRCC engaged Steven Hall & Partners commencing on June 26, 2013 to provide independent compensation advice. Steven Hall & Partners reports directly to the HRCC Chair. The advisor's mandate includes the following compensation-related services:

- Review and recommend changes to compensation structure for the CEO and other NEOs;
- Compare compensation of NEOs to marketplace data;
- Review and recommend changes to the design of the STIP and LTIP;
- Review the performance metrics used to determine incentive payments; and,
- Provide information and advice on emerging trends and best practices.

The table below sets out the fees earned by Steven Hall & Partners services provided in 2016 and 2015, in U.S. dollars. Steven Hall & Partners did not earn any additional fees from or provide any services to the Corporation outside of the engagement by the HRCC. There were no fees paid in 2016 or 2015 to any other independent compensation advisor.

Executive Compensation Related Fees for Services Performed by:	Fees for 2016	Fees for 2015
Steven Hall & Partners	\$127,690	\$111,282

Benchmarking Compensation and Peer Groups

The Corporation targets executive compensation at the median of the peer group for total target compensation, while recognizing and rewarding exceptional performance and contribution through above-median total compensation. Total target compensation is comprised of base salary plus short- and long-term incentives. The CEO and the HRCC review benchmark data to establish a market range for total target compensation. Individual compensation decisions are then made taking into account the market range, the individual's experience and performance, and the desired mix of base salary and incentives.

Benchmarking Compensation for the CEO, CFO and COO

The HRCC adopted two comparator groups in 2014 to benchmark compensation for the CEO, CFO and COO: a North American industry specific group ("Comparator Group 1") and a Canadian Reference Group ("Comparator Group 2"). This benchmark data is collected from Canadian and American companies, which is the marketplace in which the Corporation competes to retain and recruit talented executives. Influencing the choice of peer companies is the complexity of the Corporation's operations, the lack of comparable size food companies in Canada and the much larger size of many peers in the United States.

Comparator Group 1: Industry Specific Group

This group is comprised of 18 organizations in the food industry, with revenue ranging from 0.4x to 3.4x times the Corporation's annual revenue. This group includes companies that fall outside the traditional 0.5x to 2.0x revenue size in order to include the companies that the Corporation most directly competes with for profits, investment dollars and talent. The HRCC's independent compensation advisor removed one company used for the 2015 analysis; Keurig Green Mountain, Inc. was removed due to a pending acquisition and the absence of new compensation data.

Campbell Soup Co.	Hershey Co.	Saputo, Inc.
Cott Corporation	Hormel Foods Corp.	Snyder's-Lance, Inc

Flowers Foods, Inc	McCormack & Co. Inc.	Treehouse Foods, Inc.
Fresh Del Monte Produce Inc.	Pinnacle Foods Inc.	United Natural Foods, Inc.
Hain Celestial Group, Inc	Sanderson Farms Inc.	WhiteWave Foods Company

Comparator Group 2 – Canadian Reference Group

Maple Leaf Foods has very few Canadian comparators from the viewpoint of size and business focus. The most relevant comparators have been included in Comparator Group 1 (identified in the list below with the † symbol). This second Comparator Group of 15 companies provides a cross-section of Canadian companies to assess domestic competitive compensation levels and practices at similarly sized Canadian companies.

Benchmarking Compensation for other NEOs

The HRCC's independent compensation advisor, Steven Hall & Partners, used the following published survey sources to benchmark compensation for NEOs other than the CEO, CFO and COO. The providers of these published surveys have advised that they cannot disclose the identity of participating organizations within a specific revenue range due to confidentiality agreements with the participants.

Survey Name	Data Effective Date	Aging	Revenue Range	Industry

ELEMENTS OF COMPENSATION

The four main components of the Corporation's executive compensation program are referred to as "Total Direct Compensation".

Base Salary

The median (50th percentile) base salary in each comparator group provides a context for setting the base salaries of the NEOs. A number of other factors are then considered to make adjustments, including:

- An evaluation of the executive's responsibility, experience, contribution and performance during the year;
- The financial performance of the Corporation, including its ability to absorb costs;
- Market trends related to base salaries; and,
- The HRCC's assessment of internal equity between positions of similar scope.

The weight given to each factor is not defined by a fixed formula; the HRCC uses its business judgment. The annual salary adjustment date for all employees of the Corporation is normally the start of the pay period in which July 1st occurs. In 2016, any salary adjustments were made effective July 3, 2016. In 2016 base salaries for all members of the SLT, including the NEOs, were reviewed as part of a total compensation analysis. As a result, compensation levels were set to levels appropriate to market for individual experience and performance and with respect to peers within the team. This included increases for some members and freezing salary levels for others. While his base salary remained unchanged, in 2016, Mr. Young received a lump sum merit based payment in lieu of an increase. The payment is shown in the column entitled "All Other Compensation" in the Summary Compensation Table on page 43.

Short Term Incentive Plan ("STIP")

This section contains a description of the Corporation's annual STIP, which links executive pay to the achievement of annual business objectives. The award is at risk and a STIP payment is paid only if the objectives are met. The amount of STIP payment depends on performance. Performance exceeding established goals will lead to above-target payments. Performance below established goals will lead to below-target payments, which can be zero if goals are not substantially achieved. The award is paid in cash.

In 2016, 100% of the STIP for all NEOs as well as other executives of the Corporation was tied to the achievement of corporate earnings targets, which is intended to align STIP compensation with shareholder interests. While performance against individual goals does not impact STIP payouts for senior executives (including the NEOs), it is considered in decisions regarding salary and LTIP awards.

Adjusted Earnings Before Taxes ("Adjusted EBT") was used as the basis for the STIP in 2016. Adjusted EBT is Adjusted Operating Earnings after making other adjustments approved by the HRCC. Adjusted Operating Earnings is used by management to evaluate financial operating results. It is defined as earnings adjusted for items that are not considered representative of ongoing operational activities of the business, and items where the economic impact of the transactions will be reflected in earnings in future periods when the underlying asset is sold or transferred. Additional details regarding Adjusted Operating Earnings can be found in the

Management's Discussion and Analysis in the Annual Report for the Corporation's 2016 financial year. The Committee believes that Adjusted EBT provides a relevant assessment of the Corporation's operating results against the business plan. The performance measure is used to calibrate the STIP payout. The target Adjusted Operating Earnings and minimum acceptable performance for triggering an STIP payout are reviewed annually.

For 2016, to arrive at Adjusted EBT, Adjusted Operating Earnings were adjusted to exclude certain compensation costs related to an RSU award made in 2015 as the 2016 accounting cost associated with the grant was not taken into account in setting the Adjusted EBT target.

For the 2016 STIP program, the Adjusted EBT target was \$205.8 million with a threshold of \$154.4 million and a maximum of \$257.3 million. The actual Adjusted EBT was \$236.9 million resulting in a performance of 115.1%. The actual payouts under the STIP for the NEOs are found in the table on page 46. Payments to STIP participants below the executive level will have a component that is based on performance against personal goals. The personal goals are business related and reflect objectives where the participant can directly influence the outcome.

The 2016 STIP program was supplemented with a one-time RSU award to be granted under the 2006 RSU Plan with a value equal to 50% of the team portion of the STIP for all participants in the plan. The RSU award was conditional on achieving both the Adjusted EBT target that was established for the year and of certain cost control targets for 2016. This one-time incentive was implemented to strengthen employee alignment to achievement of the financial goals for the network transformation in 2016 (on which basis the 2016 Adjusted EBT target was established) and to reinforce the need for cost discipline. The Corporation believes that the incentive was very successful in achieving its purpose with the more than 1200 employees that participate in the STIP bonus program. The 2016 targets were achieved and accordingly in April, 2017 at the time the cash STIP is to be paid the participating employees will be awarded RSUs which vest over a two-year period and for which common shares will be distributed in May 2019.

The table below summarizes the target ranges for the STIP.

	Target Payout Ranges – As a % of Base Salary for Various Performance Levels			
	Below Threshold Performance	At Threshold Performance	At Target Performance	At Maximum Performance

Long Term Incentive Plan

The goal of the LTIP is to align executives to shareholder interests and focus attention on long term performance. Since LTIP grants vest over a period of time, they also encourage retention. Similar to the STIP, an LTIP grant is also based on performance and is therefore at risk.

Since 2011, the annual LTIP grant for NEOs has been comprised of 25% RSUs, 25% PSUs and 50% time-vested stock options ("Options"). RSUs and PSUs are granted under the 2006 RSU Plan (described more fully on pages 55 and 56) while Options are granted under the 2004 Plan and the 2016 Option Plan (described starting on page 52).

The number of RSUs, PSUs and Options awarded to an executive is based on five factors:

- an assessment of individual performance, potential and impact;
- the total target compensation ranges in the relevant industry comparator group;
- the grant date value of similar awards at the median and the 75th percentile in the comparator groups;
- the grant date value at the time the grant is awarded; and,
- the amount of previous grants.

The number and value of the RSUs, PSUs and Options awarded considers the performance of the executive and could result in total target compensation or an LTIP award that is higher or lower than the benchmark median. Executives who deliver superior performance will tend to receive above-median awards.

RSUs are time-vested over three (3) years. For each RSU granted, one common share is awarded on maturity. PSUs are performance-vested after three (3) years subject to achieving certain specified performance

Prior to 2016, the annual PSU grants had two performance measures: percentage EBITDA margin in respect of 20% of the units and Return on Net Assets ("RONA") in respect of 80% of the units. While RONA is a more appropriate measure, the Corporation also used EBITDA margin to conform with the measure used in the publicly announced target for the rebuilding of the manufacturing and supply chain network which commenced in 2010. With the completion of that program in 2016, the HRCC decided to use RONA as the single performance measure for LTIP awards granted in 2016. The targets for PSUs granted in 2016 are included in the following table.

Performance Level 2016-2018	Threshold	Target	Maximum
RONA (100%)	6.94%	8.67%	10.41%

Vesting of PSUs awarded in 2016 is based solely on achieving the cumulative performance target over the three (3) year performance period ending December 31, 2018. The number of PSUs will be prorated for performance between levels, with one common share awarded for each PSU that vests. The percentages of the PSUs that will vest at various levels of performance are as follows:

- Below threshold: 0%;
- At threshold: 50%;
- At target: 100%; and
- At or above maximum: 200%.

The Options granted in 2016 vest in three equal annual installments over a three-year period on the anniversary date of the grant. The exercise price is the weighted average trading price of the Maple Leaf Foods common shares on the TSX for the five (5) trading days prior to the date of grant. The Options granted to the NEOs in 2016 have a term of seven (7) years and an exercise price of \$22.53 per share.

The implementation of PSUs and RSUs that vest over three (3) years and Options with seven (7) year terms balance relatively frequent rewards for performance and longer-term strategic behaviour that is designed to deliver sustainable earnings improvement and shareholder returns.

Actual compensation received depends on the share price at the time the RSUs and PSUs vest, as well as the share price at the time vested options are exercised.

All RSUs and PSUs granted in 2016 that meet the time and/or performance vesting conditions will be distributed as shares in May 2019, unless otherwise determined by the Board and the HRCC. Shares required for distributions under the 2006 RSU Plan are purchased on the TSX by a trust established for the purpose. Accordingly, awards under the 2006 RSU Plan do not result in a dilution of shareholder interests.

Special LTIP Awards

The Corporation has made use of special RSU and PSU awards in certain circumstances. Special awards were granted in both 2015 and 2016.

In December 2015 the Board approved a one-time award in respect of 2015 performance, in recognition of the successful completion of Maple Leaf Foods' strategic transformation. RSUs and PSUs were granted with a value approximately equivalent to the team component of the 2015 STIP had the target performance been achieved in the year. For the SLT, 25% of the award was in the form of RSUs which vested immediately with the balance in the form of PSUs vesting in two equal parts in March 2017 and March 2018, subject to achieving specific EBITDA margin targets in 2016 and 2017, respectively. The 2016 target has been met. For

all other employees who participate in the STIP program, 25% of the shares awarded vested immediately and were distributed in December 2015; the balance of the award vested and the shares were distributed in December 2016.

In 2016, the Corporation implemented a special program for the grant of RSUs calculated with reference to the amount of the STIP based on both earnings performance in 2016 and cost control objectives. The program is described starting on page 37.

Recoupment Policy

In 2009, the Corporation adopted a claw back policy permitting the Corporation to recoup part of the short term annual incentive bonus. The claw back would be triggered by a restatement of earnings where the restated earnings would have generated a bonus payment that would be less than the bonus payment made and the restatement was due at least in part to gross negligence, intentional misconduct or fraud. The Corporation has revised the recoupment policy and extended it to grants under equity compensation plans made after 2016. (In 2016, amended RSU and share option plans were adopted which permit the adoption of a recoupment policy to apply.)

The purpose of this policy is to ensure executives are compensated in accordance with the terms of the incentive compensation plans in circumstances where the performance reflected in the financial statements on which the compensation was determined is found to have been incorrect after the payment, distribution or vesting date of the compensation element.

The policy requires all current and former members of the SLT, at the discretion of the HRCC, to repay or return any incentive compensation received where there is a restatement of the Corporation's financial results attributable to non-compliance with financial reporting requirements and the Committee determines that the amount of any such performance-based compensation actually paid or awarded to a member of the SLT would have been a lower amount had it been calculated based on the restated financial statements.

The Committee will consider all relevant factors and exercise business judgment in determining any appropriate amounts to recoup and has the discretion to determine the timing and form of recoupment.

Policy on Hedging

The Corporation's insider trading policy prohibits NEOs and other executives from entering into call and put options, including options intended to hedge or offset the effect of a decline in market value of any shares held or LTIP awards.

2016 Total Direct Compensation Mix

The table below shows the mix of compensation for NEOs in 2016 at the target levels for each direct compensation element.

	2016 Compensation ⁽¹⁾ As a Percentage of Total Direct Compensation at Target		
	Variable Compensation STIP	LTIP	Non-Variable (Fixed) Compensation
CEO	18%	63%	18%
CFO	24%	46%	30%
COO	25%	43%	32%
SVP, Supply Chain and Purchasing	24%	27%	49%
SVP Operations	24%	29%	47%

Note:

(1) Includes base salary, STIP for 2016 at the target value and the LTIP granted during 2016 at the expected value at the time the grant is awarded. The special RSU award calculated with reference to the STIP bonus for 2016 which was granted in March 2017 based on earnings performance in 2016 is not included.

Indirect Compensation

Benefits and Perquisites

Benefits and perquisites are not intended to form a significant part of overall compensation. Executives are provided the same group insurance benefits as other salaried employees. Benefits and perquisites are provided in accordance with a written policy and selected on the basis of cost effectiveness.

Perquisites include a car benefit, annual medical examination and a lump sum allowance toward reimbursement of a club membership and financial counseling. The total value of benefits and perquisites for each NEO is below the lesser of \$50,000 and 10% of their base salary.

Retirement Income/Savings Arrangements

Pension benefits provided to executives are non-discriminatory, meaning that NEOs participate in the pension arrangements available to substantially all of the Corporation's salaried employees. For NEOs who are members of the defined benefit pension arrangement, the Corporation makes 100% of the required contributions to the plan. NEOs participating in the defined contribution plan are required to make contributions. Employees with annual salaries that exceed the maximum amount against which they can contribute to registered plans under the *Income Tax Act* (Canada) contribution limits also participate in supplemental retirement arrangements. Annual cash STIP payments are excluded from retirement programs.

The Corporation has long recognized the risk associated with defined benefit pension plans. As a result, these plans have been closed to new salaried employees since April 2004. Employees who belonged to those plans prior to April 2004 and who elected to remain in the plans continue to accrue benefits under those plans for their continuing service with the Corporation.

STOCK PERFORMANCE CHART

The following chart compares the cumulative total return from CAD \$100 invested on January 1, 2012 in common shares of Maple Leaf Foods, the S&P 1500 Composite Food Products Index ("S&P Food Index") and the S&P/TSX Composite Total Return Index. The U.S. dollar denominated S&P Food Index is not converted to Canadian dollars. It is assumed that all dividends are reinvested. On December 30, 2016 the Corporation's shares closed on the TSX at \$28.12 and on February 28, 2017 the Corporation's shares closed on the TSX at \$30.89.

The S&P Food Index is not a published index. It is created by Standard & Poor's ("S&P"), which also calculates the returns. The index consists of each food products company included in S&P's three major U.S. market indices: the S&P 500 Index, the S&P Midcap 400 Index and the S&P 600 Smallcap Index. The composition of these indices is determined by S&P according to a methodology that considers market capitalization, liquidity and public float.

Comparison of Executive Compensation and Shareholder Returns

The table below shows the Total Shareholder Return ("TSR") for the Corporation's common shares, the S&P Food Index and the S&P/TSX Composite Total Return Index for the five years ended December 31, 2016. It also shows the total change in market value of the Corporation and change in total compensation for the CEO, CFO and the three most highly compensated executive officers of the Corporation at the end of the year. The information is presented to allow a comparison of executive compensation over the past five years to changes in market capitalization and shareholder returns.

The amounts in the table do not include compensation paid to former employees who were not executive officers, ensuring that the comparison is between five individuals for each year in the period. For the five-year period, a majority of the change in reported compensation is due to changes in payouts under the annual STIP. Reflecting corporate earnings below the threshold performance level, there were no STI payouts from 2012 through 2015. However, in 2015 there was a special RSU award in respect of completion of the supply chain network transformation between 2010 and 2015. Compensation in 2012 was also affected by the deferral to early 2013 of the LTIP award that would normally have been granted in late 2012. In 2014, the Corporation paid a special incentive award to one of the NEOs, Ms. Deborah K. Simpson. Various current and former executive officers also participated. The special incentive was in respect of the divestiture of the Rothsay operation in late 2013 and Canada Bread in 2014.

Executive compensation is not directly correlated to shareholder returns for a number of reasons:

- the Corporation's salary and compensatory pension costs are relatively fixed and generally unaffected by the day-to-day changes in shareholder returns;
- short-term incentive compensation is tied to internal measures of Company success related to the current year, primarily earnings for the year. Current-year earnings do not necessarily translate into shareholder returns in the short term;

- the amount of equity compensation awards for individual executives is generally a function of individual performance and not a function of corporate performance in the year of grant; and,
- equity awards represent approximately half of total NEO compensation and are valued in the summary compensation table on page 43 at the time of grant based on the grant date share price and expected vesting. The actual value transferred to the participant at maturity will be higher or lower depending on the Corporation's share price at the maturity or exercise date and the Corporation's earnings performance during the holding period. There is, however, a high correlation between share option gains realized and actual compensation received under RSU and PSU distributions and shareholder returns for the period the options and units are held.

Total compensation for all NEOs ⁽³⁾ (\$ millions)	76.9	14.0	12.8	27.3	15.2	7.7

Notes:

- (1) TSR is the gain or loss in share price plus reinvestment of all dividends paid during the period. The amount in the "Total 2012-16" column is the aggregate compound return over the five-year period. The return for the S&P Food Index covers the same period except that the return is calculated in U.S. dollars and is not translated to Canadian dollars. Further details of the S&P Food Index are found herein under the heading "Stock Performance Chart".
- (2) Increase or decrease in market capitalization is based on year-end shares outstanding and closing share prices. The change in market capitalization for the period is reduced by the proceeds for shares issued and increased by dividends paid and the cost of shares repurchased under normal course issuer bids.
- (3) Compensation for 2012 does not include equity-based long-term compensation. In the years up to and including 2011, the Corporation granted RSUs, PSUs and Options on October 1. The grant that would normally have been made on October 1, 2012 was deferred to January, 2013.
- (4) Compensation in 2014 included \$9.0 million connected to the sale of Rothsay and Canada Bread. Furthermore, in 2014 the reported compensation covers six named executive officers versus five in each of the other years reported.

SUMMARY COMPENSATION TABLE

The following table provides a summary of compensation earned during each of the last three fiscal years by the NEOs: the CEO, the CFO and the next three most highly compensated employees who were executive officers at the end of the year. This information is given as of December 31, 2016, the end of the Corporation's most recently completed financial year.

Notes:

- (1) The share-based awards represent RSUs and PSUs granted under the 2006 RSU Plan. Details of this plan are found starting on page 55 under the heading "Description of Share Option and Share Incentive Plans – 2006 RSU Plan". The vesting terms of the RSUs granted and outstanding at the end of 2016 are described in footnote (3) to the table found on page 46.

The RSUs have been valued using assumptions and methodologies consistent with those for valuing the expense for accounting purposes including the discount to account for the fact that dividends are not paid on RSUs. However, for accounting purposes value is calculated using the closing share price on the date of grant, while for compensation purposes the closing share price on the date before the date of grant or the weighted average share price on the date of grant is used. Furthermore, for compensation purposes no discount for potential forfeiture of RSUs due to termination of employment was factored into the valuation. Awards are made on the assumption that the executive will remain employed during the vesting period. For accounting purposes, an estimate is made of forfeitures due to termination of employment based on past experience. The special grant in December 2015 of short term RSUs and PSUs was valued at the weighted average share price. The assumptions used for accounting purposes are found in Note 22 of the financial statements of the Corporation for the years ended December 31, 2016 and 2015. The financial statements may be found on the Corporation's website at www.mapleleaffoods.com and on SEDAR at www.sedar.com.

The table below compares the fair value of the RSUs and PSUs reported in the Summary Compensation Table. The unit values are the weighted average for the units granted to the NEOs.

	2016		2015		2014	
	Compensation Fair Value	Fair Value for Financial Statements	Compensation Fair Value	Fair Value for Financial Statements	Compensation Fair Value	Fair Value for Financial Statements
RSU/PSU unit values	\$21.78	\$21.98	\$21.86	\$21.69	\$19.20	\$18.87

A portion of the awards made in each year is subject to performance vesting based on the achievement of earnings margins and returns on net assets generally for a three year period starting with the year of grant. The performance period for the 2014 award was based solely on 2016. The special LTIP award in December 2015 (which is described starting at the bottom of page 38) vests over two years. The valuation of the award is based on the Corporation's estimate at the date of grant of the number of units that are expected to vest and result in the distribution of shares at maturity.

- (2) The option-based awards were granted under the 2004 Share Incentive Plan (the "2004 Plan") and the 2016 Share Option Plan (the "2016 Plan"). Details of these plans are found starting on page 51 under the heading "Description of Share Option and Share Incentive Plans". The terms of the options granted under each plan are identical. The options granted have been valued using the Black-Scholes model using methodology consistent with those for valuing the expense for accounting purposes, but subject to different assumptions. Valuation is based on the maximum term of seven (7) years versus the average expected holding period of 4.5 years used for accounting purposes. Furthermore, for accounting purposes shares are valued at the closing share price on the date of grant while the award value for grant purposes is based on the market value specified in the both the 2016 Plan and 2004 Plan which is the five-day volume weighted average price. Furthermore, no discount for potential forfeiture of options due to termination of employment was factored into the valuation whereas for accounting purposes the value expressed shown in the table below is further reduced by forfeitures and terminations. Also, awards are made with the assumption that the executive will remain employed during the vesting period. For accounting purposes an estimate is made of forfeitures due to termination of employment based on past experience. The assumptions used for accounting purposes are found in Note 22 of the financial statements of the Corporation for the years ended December 31, 2016 and 2015. The financial statements may be found on the Corporation's website at www.mapleleaffoods.com and on SEDAR at www.sedar.com. Each option granted in 2016 was valued in the Summary Compensation Table at \$5.11. For accounting purposes, the options were valued at \$4.05.

- (3) The STI is paid in cash immediately following approval of the payouts by the HRCC. The HRCC approval follows approval by the Board of the annual financial statements for the year on which the performance measures are based.
- (4) Messrs. M.H. McCain, Maksymetz and Young accrue benefits under the Corporation's defined benefit pension arrangements for salaried employees in Canada. The amount in the table above represents the compensatory pension expense related to the service for each of the NEOs, excluding the impact of differences between actual compensation paid in 2016 and the actuarial assumptions used for the year. Ms. Simpson and Dr. Huffman participated in defined contribution pension arrangements and the amounts shown are amounts allocated to the accounts maintained for their respective benefits.
- (5) The table does not include the value of perquisites which, for each executive, is less than both \$50,000 and 10% of salary.
- (6) While Mr. M.H. McCain is a director of the Corporation, as a full time employee he does not receive any separate or additional compensation for service on the Board as a director. Several of the NEOs are directors of one or more of the Corporation's subsidiaries. They do not receive any compensation for those positions in addition to the compensation disclosed in the table above.
- (7) Ms. Simpson was the CFO from May 23, 2014 onwards. Prior to that, she was the Senior Vice President, Finance to February 25, 2013 and President, Maple Leaf Business Services to May 23, 2014.
- (8) Mr. Maksymetz was the President, Maple Leaf Consumer Foods to May 23, 2014 and COO thereafter.
- (9) Dr. Huffman was the Chief Food Safety Officer and Senior Vice President, Quality and Six Sigma to May 23, 2014 and SVP Operations and Chief Food Safety Officer thereafter.
- (10) Mr. Young was the Executive Vice President, Transformation, Maple Leaf Consumer Foods to May 23, 2014, Senior Vice President, Transformation to February 26, 2015 and SVP Supply Chain and Purchasing thereafter. The amounts shown in the "All Other Compensation" column consist of lump sum payments made in connection with adjustments to his compensation package implemented at the time of the reorganization of the Corporation's business and management at the time of the sale of Canada Bread. The payment in 2014 was in recognition of the adjustment to Mr. Young's target bonus which was lowered to equal the percentage of salary for senior executives. In 2015 and 2016, Mr. Young received the lump sum payment in lieu of a salary increase.

Share-Based Incentive Plans

The Corporation has three equity incentive plans under which there are outstanding awards:

- the 2004 Share Incentive Plan, which provides for the grant of options satisfied by the issuance of shares by the Corporation from treasury;
- the 2016 Share Option Plan, which provides for the grant of options satisfied by the issuance of shares by the Corporation from treasury; and

- the 2006 RSU Plan, which provides for the grant of time-vested RSUs and performance-vested PSUs that are satisfied through the acquisition of shares in the market by a trust established for that purpose.

See “Description of Share Option and Share Incentive Plans” starting on page 51 for more detailed descriptions of these plans. The options currently outstanding were granted primarily under the 2004 Share Incentive Plan. A portion of the 2016 share option grants were under the 2016 Share Option Plan which was adopted in January 2016 to replace the 2004 Share Incentive Plan. After February 2016, no further options will be granted under 2004 Share Incentive Plan. All the RSUs and PSUs currently outstanding were granted under the 2006 RSU Plan.

The options and the RSUs outstanding are subject to time vesting only. The PSUs granted in 2016 have a performance-vesting feature based on the achievement of three-year (2016 through 2018) RONA targets for the Corporation. The performance period for the PSUs is generally three years.

Notes:

- (1) All options were granted with a term of seven years but may expire earlier if the executive ceases to be an employee of the Corporation. The options vest in three equal annual installments. The options with an exercise price of \$11.36 and \$11.85 were granted with original expiry dates of October 1, 2018 and January 7, 2020 respectively. Each of these options fully vested on May 23, 2014 and the seven-year term of each such option was shortened such that the expiry date was advanced to May 23, 2018. At December 31, 2016, the options expiring in 2021 were two-thirds vested, options expiring in 2022 were one-third vested and all options expiring in 2023 were unvested.
- (2) The in-the-money value in the column is for all options, both vested and unvested. The value was calculated using a value of \$28.12 per share, the closing price of the Corporation's shares on the TSX on December 30, 2016.

- (3) Share-based awards consist of both RSUs and PSUs granted under the 2006 RSU Plan. The RSUs are time-vested over approximately 3 years. The PSU grants generally vest based on the achievement of cumulative EBITDA margin and/or RONA targets for a three-year period starting with the year of grant. The award made in 2014 measured performance for only one year, 2016, the year following anticipated completion of the Corporation's manufacturing network transformation. (The performance criteria are more fully described on under the heading "Long Term Incentive Plan" on pages 37 and 38 of this Circular.) Depending on the performance, between zero and two shares will vest for each PSU. As described on pages 37 and 38, one series of PSUs was granted in December 2015 with a term and performance vesting requirements different from the standard arrangements. One-half of this series of PSUs vested in March 2017 based on EBITDA margin performance in 2016 and the other half vests in March 2018 based on EBITDA margin performance in 2017. Furthermore, depending on performance between zero and 1.6 shares vest for each PSU held. The number of shares shown in the column is the maximum number of shares that will be distributed, assuming the Corporation's performance exceeds the maximum performance level.
- (4) In respect of the RSUs and PSUs granted, the "market or payout value" is based on the share price at December 30, 2016, \$28.12. The number of shares valued is as follows:
- (i) in respect of RSUs where the payout is not determined by performance condition, the number of units granted are valued;
 - (ii) in respect of PSUs where the performance period is the 2016 financial year or any earlier year, the number of units valued is the number expected to be distributed given actual performance; and
 - (iii) in respect of PSUs where the vesting depends wholly or in part on a performance period after 2016, no units are valued. (Under the performance vesting formula, the minimum number of shares that may be distributed on the maturity of the PSUs is zero.)
- (5) The 2006 RSU Plan calls for RSUs and PSUs to be distributed immediately on vesting. There are no undistributed vested awards.

R.D. Huffman	138,399		424,452
R. Young	137,997		439,374

Notes:

- (1) Two series of option-based awards vested in 2016. One-third of the options that were granted on September 15, 2014 (\$20.28 per share exercise price) vested on September 15, 2016 when the share price was \$28.92. One-third of the options that were granted on March 9, 2015 (\$22.52 per share exercise price) vested on March 9, 2016 when the share price was \$26.51.
- (2) No RSUs or PSUs vested in 2016.
- (3) A description of the STIP can be found under the subheading "Short-Term Incentive Plan (STIP)" on page 36 of this Circular. The short-term incentive is paid in cash immediately following approval of the payouts by the HRCC and approval by the Board of the annual financial statements on which the performance measures are based.
- (4) For 2016, the Corporation established a special incentive calculated with reference to the STIP. Provided the performance exceeded certain level, all employees participating in the STIP bonus plan would be eligible to receive a special grant of RSUs whose underlying shares will have a current face value equal to one-half of the STIP cash bonus. The RSUs will be granted in April 2017 and will vest and be distributed in May 2019. The value of the special bonus is not reflected in the table above nor is it included in the Summary Compensation Table on page 43 as it will be reported for the 2017 financial year in the March 2018 circular.

The value of the RSUs to be granted in April 2017 to the NEOs under this program is:

M.H. McCain	\$743,822
D.K. Simpson	\$262,189
G. Maksymetz	\$397,423
R.D. Huffman	\$212,226
R. Young	\$219,687

Summary of Gains Realized on Exercise of Options

During 2016, one NEO exercised share options. The table below indicates the aggregate number of options exercised, the average exercise price and the gains realized on exercise.

	Number	Average Exercise Price \$ per share	Average Value on Date of Exercise \$ per share	Gain Realized \$
Huffman, R.D.	28,700	11.36	28.60	494,886

Participants may exercise options at any time provided they comply with the insider trading guidelines and the share ownership policy requirements for executives. The share ownership guidelines are detailed on pages 32 to 33 of this Circular.

Pension/Retirement Plans

Messrs. McCain, Maksymetz and Young participate in the Corporation's registered defined benefit and non-registered supplemental defined benefit retirement plans. The Corporation's defined benefit plans have been closed to new employees since April 2004 when they were replaced with defined contribution plans. Ms. Simpson and Dr. Huffman participate in defined contribution arrangements for Canadian salaried employees.

Pension Table – Defined Benefit Plans

The table below contains the following information about each NEO participating in the Corporation's defined benefit pension plans:

- Years of credited service as at December 31, 2016 and at age 65;
- Estimated annual benefit accrued, or earned, for service to December 31, 2016 and to the normal retirement age of 65; and,
- A reconciliation of the accrued obligation from December 31, 2015 to December 31, 2016.

R. Young	35	35	434,806	434,806	6,313,081	(75,139)	(7,267)	6,230,675

Notes:

- (1) The Number of Years of Credited Service as at December 31, 2016 corresponds to the actual years of service with the Corporation and its subsidiaries. The Number of Years of Credited Service at age 65 is the sum of the number of years of credited service as at December 31, 2016 and the projected years of credited service from December 31, 2016 to the date the executive turns 65. Although the Corporation's pension plans do not prohibit granting years of service in addition to years of membership, this option has been used infrequently in the last 10 years.
- (2) The Annual Benefits Payable is the amount of lifetime pension payable in the normal form. Mr. Young was the only NEO eligible to retire at December 31, 2016 with an unreduced pension. For Mr. McCain and Mr. Maksymetz, the amount of Annual Benefits Payable at December 31, 2016 is the pension the NEO would be entitled to starting at age 65 based on termination of employment at December 31, 2016. The amount is based on the years of credited service earned to December 31, 2016 and on average pensionable earnings at December 31, 2016. For all NEOs other than Mr. Young, the Annual Benefits Payable at age 65 is the Annual Benefits Payable at December 31, 2016 increased to reflect credited service at age 65. Mr. Young's credited service has reached the 35-year maximum permitted under the plan. Pensionable earnings are composed of salary only, and exclude annual cash incentive payments and other compensation. The NEOs are fully vested in their pension entitlements earned to December 31, 2016.
- (3) The opening present value of the defined benefit obligation is the value of the projected pension earned for service to December 31, 2016. The values have been determined as at December 31, 2016 based on actual pensionable earnings adjusted to reflect expected increases to retirement.

- (4) The 2016 Compensatory Change is the value of the projected pension earned for service during 2016 as well as experience gains and losses arising from the NEO's salary increase for the year being greater or lesser than the assumption used. The values have been determined as at December 31, 2016 based on actual pensionable earnings adjusted to reflect expected increases to retirement. The valuation method and assumptions are those used for purposes of the Corporation's financial statements. Information regarding the method and assumptions is in Note 9 to the financial statements for December 31, 2016.
- (5) The 2016 Non-Compensatory Change includes interest accruing on the beginning-of-year obligation, other experience gains and losses, and changes in interest rate assumptions resulting from changes in long-term bond yields.
- (6) The closing present value of the defined benefit obligation is the value of the projected pension earned for service to December 31, 2016. The values have been determined as at December 31, 2016, based on actual pensionable earnings adjusted to reflect expected increases in pensionable earnings.
- (7) The calculations of reported amounts use the same actuarial assumptions and methods that are used for calculating accrued benefit obligations and annual expenses, as disclosed in the Corporation's 2016 and 2015 consolidated financial statements in Note 9, and as prescribed by International Financial Reporting Standards. The methods and assumptions used to determine estimated amounts will not be identical to the methods and assumptions used by other issuers and, as a result, the figures may not be directly comparable across issuers. In accordance with Canadian generally accepted accounting principles, the amounts above make no allowance for the different tax treatment of the portion of pension not paid from the registered pension plans. All amounts shown above are based on assumptions and represent contractual entitlements that may change over time.

Pension Table – Defined Contribution Plans

The table below shows pension details for the NEOs participating in the Corporation's Canadian defined contribution pension plan. It also shows the account balances for December 31, 2015 and December 31, 2016 and the Corporation's contribution to the plans on the NEO's behalf (reflected as 2016 Compensatory Change).

Name	Accumulated Value at December 31, 2015 \$	2016 Compensatory Change ⁽¹⁾ \$	Accumulated Value at December 31, 2016 \$
D.K. Simpson	264,410	28,829	325,173
R.D. Huffman	238,863	37,389	310,651

Note:

- (1) The 2016 Compensatory Change amount is the contribution made by the Corporation to the plan in 2016 in respect of the NEO, and is based on eligible earnings in 2016.

Summary of Defined Benefit Plan Provisions (Canada)

Messrs. McCain, Maksymetz and Young participate in defined benefit arrangements, as summarized below.

Pension benefits are based on the member's credited service in the plan and average pensionable earnings at retirement calculated as the highest average of the member's pensionable earnings. Pensionable earnings include salary earned over 60 months in the last 120 months of earnings preceding retirement. This excludes annual cash STIP payments and other compensation. Retirement income is payable for the lifetime of the member with a minimum of 60 monthly payments. Payment options of actuarially equivalent value are also available.

The annual pension benefit is determined as follows:

- multiply years of credited service (up to 35 years) by
- the sum of:
 - 1.3 per cent of average pensionable earnings up to the average of the last five years' maximum pensionable earnings under the Canada/Quebec Pension Plans ("final average YMPE"); and
 - 2.0 per cent of the excess of average pensionable earnings above the final average YMPE.

The pension benefit is determined without regard to the maximum pension limit for registered pension plans under the *Income Tax Act* (Canada). Any amount in excess of this limit is paid under the supplemental non-registered plan.

The normal retirement age is 65, but members may elect to start their pension anytime between the ages of 55 and 71. There is no reduction to a member's pension if retirement occurs on or after 60 years of age. If a member retires between age 55 and 60 and their age plus years of continuous service total at least 85 points, their pension will be reduced by 0.5 per cent for each month that retirement is before age 60. Otherwise, pensions are reduced on an actuarially equivalent basis.

Participants in the plan who are given the "designated executive" status prior to January 1, 2015 (which include NEOs) are not required to contribute to the plan.

Summary of Defined Contribution Plan Provisions (Canada)

Ms. Simpson and Dr. Huffman participate in defined contribution arrangements for Canadian salaried employees. Effective January 1, 2015 all employees are required to contribute 1.5% of eligible earnings and may contribute an additional 1.5% of eligible earnings to the plan. Prior to 2015, "designated executives" were not required to contribute to the plan. Ms. Simpson and Dr. Huffman were "designated executives" and were not required to make contributions to the plan before 2015. The Corporation contributes 4.5% of eligible earnings plus 100% of the additional contributions made by the employee. Eligible earnings include base salary excluding annual cash STIP payments and other compensation.

Contributions up to the maximum dollar limit allowed under the *Income Tax Act* (Canada) are deposited into the participant's account and invested according to the investment instructions made by the participant. The contributions in excess of these limits allowed are credited to an unfunded supplemental non-registered plan. Investment income is credited to the participant's account in the unregistered plan at a rate equal to the rate of return earned in the participant's registered pension plan account.

The Corporation's portion of the participant's account vests immediately on enrollment. The participant's account is distributed when the participant leaves the Corporation.

INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS UNDER SECURITIES PURCHASE AND OTHER PROGRAMS

None of the directors or executive officers are indebted to the Corporation.

TERMINATION AND CHANGE OF CONTROL BENEFITS

The Corporation does not have contracts of employment with any of its NEOs that specify the benefits that are payable on termination of employment or change of control.

The Committee has established rules for the expiry of units held by employees under the 2006 RSU Plan and for options held under the 2004 Share Incentive Plan ("2004 Plan") and the 2016 Share Option Plan ("2016 Plan") on termination of employment. In the case of a change of control, the benefits would not be triggered unless there were also a loss of employment. This requirement that both conditions be present is sometimes referred to as a "double trigger".

These rules apply to all participants in the plan, including NEOs.

Reason for Termination of Employment	Termination of RSUs	Termination of Options
Termination by the Corporation for Cause	RSUs held expire on the date of termination.	All vested and unvested options held expire on the date of termination.
Termination by Voluntary Resignation	RSUs held expire on the date of termination.	Unvested options held expire on the date of termination. Vested options expire 30 days following the date of termination (90 days in the case of the 2016 Plan.).

Notes:

- (1) On maturity, the employee will receive a proportion of the distribution s/he would have been entitled to had s/he remained employed with the Corporation. The proportion is the number of days from the date of grant to the date of termination, to the number of days from the date of grant to the distribution date. For example, assume an employee was granted RSUs in an award with a three year vesting period. If the employee is terminated by the Corporation without cause or takes early retirement one year after the grant, one-third of the full amount of the RSUs vest and are distributed.
- (2) Retirement from the Industry is defined as termination of employment, other than by the Corporation for cause, at the time when the employee is 55 or older with a minimum of five (5) years of service and the employee agrees not to provide any services directly or indirectly to any company or other organization that competes with the Corporation in the industry in which the executive was engaged by the Corporation.
- (3) Normal Retirement is defined as termination of employment, other than by the Corporation for cause, at the time when the employee is 60 years or older and has at least 10 years of service.
- (4) Early Retirement is defined as termination of employment, other than by the Corporation for cause, at the time when the employee is 55 years or older and has at least 10 years of service.

DESCRIPTION OF SHARE OPTION AND SHARE INCENTIVE PLANS AND SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

2004 SHARE INCENTIVE PLAN

The 2004 Share Incentive Plan (the "2004 Plan") was adopted on September 8, 2004 and was last amended effective January 25, 2016. When adopted, the 2004 Plan allowed for awards of both share options and RSUs. On January 25, 2016, the Board effectively terminated the 2004 Plan in respect of RSU grants by reducing the number of shares reserved for issue for RSUs to the number that had been previously distributed. As of the date hereof, there are no RSUs outstanding under the 2004 Plan. Accordingly, the information regarding the 2004 Plan below is limited to share options.

Eligibility

Under the 2004 Plan, the Board is authorized to grant share options to full-time employees of the Corporation, its affiliates and any partnership of which the Corporation is a partner.

Exercise Price of Options

Options to be granted under the 2004 Plan are exercisable at a price not below market value at the time of grant. Market value, for purposes of the 2004 Plan, is the weighted average trading price on the TSX for the five days prior to the date of grant.

Number of Shares

The maximum number of shares that may be issued upon the exercise of options under the 2004 Plan is 14,077,799 less any shares that were issued after September 8, 2004 upon the exercise of options granted under a prior share option plan. The table below indicates the status of the shares reserved for option grants under the 2004 Plan as of February 28, 2017.

	Options	
	Number of Shares or Options ⁽¹⁾	Percentage of Shares Outstanding ⁽¹⁾
Shares issued pursuant to the exercise of options under the 2004 Share Incentive Plan and prior plans	9,941,285	7.6%
Options granted and outstanding under the 2004 Plan	4,136,440	3.2%
Options available for future grants	74	0.0%
Total number of shares reserved for issue	14,077,799	

Note:

(1) The number of options and shares and percentage of the number of shares outstanding are given as of February 28, 2017.

Exercise Periods/Term of Options /Assignability

The options granted have a term of seven years, but at the discretion of the Board the term can be up to 10 years.

Unless otherwise determined by the Board and subject to the earlier expiration of the option, participants whose employment with the Corporation ceases due to retirement or death are entitled to exercise any options for the one-year period following death or retirement. In the event of a voluntary resignation by the employee and subject to the earlier expiration of the options, vested options on the last date of employment are exercisable for a 30-day period afterward. While the same 30-day period applies if the participant's employment is terminated without cause by the Corporation, the Board has the discretion to amend the time limit. If employment is terminated with cause, all vested and unvested options expire on the date of termination. The Board and the HRCC have adopted extended holding periods for holders of options in the event of termination of employment under certain conditions, such as early retirement. The details are found on pages 49 and 50.

Generally, options are not assignable. However, the Board is authorized to allow a participant to assign his or her awards to a wholly-owned holding company, a registered retirement savings plan or a registered retirement income fund established by or for the participant or under which such individual is a beneficiary.

Limits on Individual and Insider Participation

The number of shares reserved for issuance or issued to any one person pursuant to the 2004 Plan together with shares issuable under the Corporation's other security-based compensation arrangements may not exceed 5% of the Corporation's outstanding issued shares. The number of shares reserved for issuance or issued to insiders pursuant to the 2004 Plan together with shares issuable to insiders under the Corporation's other security-based compensation arrangements may not at any time exceed 10% of all outstanding shares of the Corporation.

Share Capital Adjustments

Adjustments to the terms of outstanding options are permitted under the 2004 Plan in the event of a capital reorganization of the Corporation including any amalgamation, combination, arrangement or merger, a subdivision or consolidation of common shares or any similar capital reorganization or payment of a stock dividend, that does not constitute a "change in control" (as defined in the 2004 Plan). In the event the Corporation's capital structure is otherwise amended, the Board shall make any amendments to the terms of any outstanding option awards as it considers equitable in order to preserve the proportionate rights and obligations of the participants.

Vesting

Under the 2004 Plan, the Board is authorized to determine the time vesting and performance vesting restrictions for grants of options. Upon a change in control of the Corporation, the Board may accelerate the vesting of any outstanding options, in which case any unexercised options will be terminated following the change in control. Similarly, the Board may at any time accelerate the vesting of any options in circumstances involving the retirement, death or other termination of employment of a participant.

Amendment

The 2004 Plan originally provided that the Board may, subject to stock exchange approval, amend, suspend or terminate the plan provided that such action does not (i) impair the rights or obligations arising from an award previously granted to an employee without the employee's consent, or (ii) permit the expiry of options beyond 10 years from the grant date. On April 24, 2008, shareholders approved a resolution amending the 2004 Plan to revise the amendment provisions to more clearly specify which amendments require shareholder approval, and to automatically extend the expiry of an option outstanding under the plan to 10 days following a corporate black-out period where the option would otherwise expire within two days of a corporate black-out period.

MAPLE LEAF FOODS INC. 2016 SHARE OPTION PLAN

The Maple Leaf Foods Inc. 2016 Share Option Plan (the "2016 Plan") was adopted on January 25, 2016. The 2016 Plan was approved by shareholders on May 4, 2016 and was approved by the TSX.

Eligibility

The Board is authorized to grant share options under the 2016 Plan to full-time and part time employees of the Corporation, its affiliates and any partnership of which the Corporation is a partner, as well as to consultants. Non-employee directors are specifically excluded from the 2016 Plan.

Exercise Price of Options

Options to be granted under the 2016 Plan are exercisable at a price not below market value at the time of grant. For purposes of the 2016 Plan, market value is the volume weighted average trading price on the TSX for the five days prior to the date of grant.

Number of Shares

The maximum number of shares that may be issued upon the exercise of options under the 2016 Plan is 2,500,000.

	Options	
	Number of Shares or Options ⁽¹⁾	Percentage of Shares Outstanding ⁽¹⁾
Shares issued pursuant to the exercise of options under the 2016 Share Option Plan	–	0.0%
Options granted and outstanding under the 2016 Share Option Plan	108,560	0.1%
Options available for future grants	2,391,440	1.8%
Total number of shares reserved for issue	2,500,000	

Exercise Periods/Term of Options /Assignability

The options granted have a term of up to ten years. Notwithstanding the ten-year limit, the Corporation's practice is to grant options with a seven year term.

Unless otherwise determined by the Board, participants whose employment with the Corporation ceases due to retirement are entitled to exercise any options that were vested on the date of retirement during the term of the options. for the one-year period following retirement. In the event of a voluntary resignation by the employee, vested options on the last date of employment are exercisable for a 90-day period afterwards. While the same 90-day period applies if the participant's employment is terminated without cause by the Corporation, the Board is permitted the discretion to amend the time limit. In the event employment is terminated with cause, all vested and unvested options expire on the date of termination. The Board and the HRCC have adopted extended holding periods for holders of options in the event of termination of employment under certain conditions, such as early retirement. Generally, options are not assignable except to a permitted assign. The details are found on pages 49 and 50.

Surrender of Options

The 2016 Plan allows an option holder, in lieu of exercising vested options, to surrender them for cancellation and receive shares equal to the in-the-money value of the surrendered options. For example, an employee wishes to exercise 1,000 options with an exercise price of \$15 per share at a time when the shares have a market value of \$20. Normally, the employee would pay the total of \$15,000 for the exercise price and proceed to sell 750 shares in the market in order to fund the \$15,000. By electing to surrender the options under the 2016 Plan, the employee will receive only 250 shares and will surrender the options for the 750 shares instead of paying the exercise price. This is an alternative to broker-based cashless exercise programs that will reduce dilution and permit an employee to avoid a sale in the market that he or she may be required to undertake in order to fund the exercise price for the options. Other than foregoing proceeds for the exercise price, the alternative does not have any negative tax or other consequences to the Corporation. However, the surrendered options will be deemed to have been exercised for purposes of the shares reserved under the 2016 Plan.

Limits on Insider Participation

The number of shares reserved for issuance, or issued to insiders pursuant to the 2016 Plan together with shares issuable to insiders under the Corporation's other security-based compensation arrangements, may not at any time exceed 10% of all issued and outstanding shares of the Corporation. In addition, the number of shares that may be issued to insiders in any one-year period under the 2016 Plan and any other security-based compensation arrangement of the Corporation may not exceed 10% of the issued and outstanding shares of the Corporation.

Share Capital Adjustments

Adjustments to the terms of outstanding options by the Board, without shareholder approval, are permitted under the 2016 Plan in the event of a capital reorganization of the Corporation including any amalgamation,

combination, arrangement or merger, a subdivision or consolidation of common shares or any similar capital reorganization or payment of a stock dividend, that does not constitute a Change in Control (as defined in the 2016 Plan). In the event the Corporation's capital structure is otherwise amended, the Board shall, and without any requirement for shareholder approval, make any amendments to the terms of any outstanding option awards as it considers equitable in order to preserve the proportionate rights and obligations of the participants.

Vesting

Under the 2016 Plan, the Board is authorized to determine the time vesting and performance vesting restrictions for grants of options. Upon a change in control of the Corporation, the Board may accelerate the vesting of any outstanding options, in which case any unexercised options will be terminated following the change in control. Similarly, the Board may at any time accelerate the vesting of any options in circumstances involving the retirement or other termination of employment of a participant.

Amendment

The Board may from time to time, without notice and without approval of the shareholders, amend, modify, change, suspend or terminate the 2016 Plan or any options granted pursuant to the 2016 Plan as it in its discretion determines appropriate, provided, however, that no such amendment, modification, change, suspension or termination of the 2016 Plan or any options granted thereunder may materially impair any rights of an optionee or materially increase any obligations of an optionee under the 2016 Plan without the consent of the optionee, unless the Board determines such adjustment is required or desirable in order to comply with any applicable securities laws or TSX requirements. However, approval of the holders of the voting shares of the Corporation shall be required for any amendment, modification or change that:

- (a) increases the number of shares reserved for issuance under the 2016 Plan, except pursuant to the provisions in the 2016 Plan which permit the Board to make equitable adjustments in the event of transactions affecting the Corporation or its capital;
- (b) increases or removes the 10% limit on shares issuable or issued to insiders;
- (c) reduces the exercise price of an option (for this purpose, a cancellation or termination of an option of an optionee prior to its expiry date for the purpose of reissuing an option to the same optionee with a lower exercise price shall be treated as an amendment to reduce the exercise price of an option) except pursuant to the provisions in the 2016 Plan which permit the Board to make equitable adjustments in the event of transactions affecting the Corporation or its capital;
- (d) extends the term of an option beyond the original expiry date (except where an expiry date would have fallen within a blackout period applicable to the optionee or within five business days following the expiry of such a blackout period);
- (e) permits an option to be exercisable beyond 10 years from its date of grant (except where an expiry date would have fallen within a blackout period of the Corporation);
- (f) permits members of the Board who are not employees to receive options under the 2016 Plan;
- (g) permits options to be transferred to a Person other than a permitted assign or for normal estate settlement purposes; or
- (h) deletes or reduces the range of amendments which require approval of shareholders.

Equity Compensation Plan Information as at December 31, 2016

The following table provides information as at December 31, 2016, with respect to the equity compensation plans of the Corporation.

The share options and RSUs that have been issued to employees are described in Note 22 to the Corporation's 2016 consolidated financial statements. The financial statements are available from the Corporation's website at www.mapleleaffoods.com and on SEDAR at www.sedar.com.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (a)	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights (b)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (a)) (c)
Equity compensation plans approved by securityholders ⁽¹⁾	4,245,000	\$17.75	2,391,514
Total ⁽²⁾	4,245,000	\$17.75	2,391,514

Notes:

(1) Options granted under the 2004 Plan and the 2016 Plan.

(2) In 2006, the Corporation implemented the 2006 RSU Plan, in which awards are satisfied with shares that are purchased on the TSX. The awards under that plan are not included in the above figures as no shares will be issued from treasury to satisfy those awards.

Total Dilution under All Employee Share Option Plans

The table below shows the total potential dilution from the two treasury based equity compensation plans, the 2004 Plan and the 2016 Plan. While the table below indicates that the potential dilution is over 5%, it should be noted that the amount would have been 4.9% but for the fact that the Corporation repurchased for cancellation 4.4 million common shares since May 2016 under a normal course issuer bid.

	Number or Options	Percentage of Shares Outstanding
Options granted and outstanding	4,245,000	3.3%
Options available for future grants	2,391,514	1.8%
Total	6,636,514	5.1%

Note:

(1) Calculated based on the 130,348,189 common shares outstanding as of February 28, 2017. But for the repurchase by the Corporation of 4.4 million common shares, the percent would now be 4.9%.

Burn rate under All Employee Share Option Plans

The following table shows the number of share option grants as a percentage of average shares outstanding (the "burn rate") for the past three years.

	2014	2015	2016
Net Grants under 2004 Plan	1,161,000	701,600	732,740
Net Grants under 2016 Plan			108,560
Net grants under all treasury based equity compensation plans	1,161,000	701,600	841,300
Burn rate ⁽¹⁾	0.8%	0.5%	0.6%

Note:

(1) The burn rate for the year is calculated as the number of options granted less any forfeitures, divided by the average number of shares outstanding.

2006 RSU PLAN

In 2006, the Board adopted a share-based incentive compensation plan (the "2006 RSU Plan") for employees, including executive officers. The 2006 RSU Plan provides for the grant of RSUs. On maturity, assuming the performance criteria are achieved, participants receive one fully paid share for each vested RSU held, subject to adjustment up or down to reflect the level of achievement of the performance vesting criteria. The shares required for distribution on maturity and on achievement of the performance and service time requirements will be acquired on the open market at the Corporation's cost by a trust established for that purpose. The Board amended the 2006 RSU Plan in 2013 to allow either shares or the equivalent cash

value to be distributed. The Board further amended the plan in 2015 to allow distributions to be made on a net of tax basis to satisfy the tax withholding requirements.

Eligibility

Under the 2006 RSU Plan, the Board is authorized to grant RSUs to full-time employees of the Corporation, its affiliates and partners. In 2015, eligibility was extended to part-time employees and consultants.

Vesting Under the 2006 RSU Plan

Upon the completion of the time-vesting service requirements and achievement of the performance-vesting requirements, each RSU entitles the employee to receive one fully paid share of the Corporation (subject to adjustment up or down to reflect the level of achievement of the performance-vesting criteria).

Number of Shares

The 2006 RSU Plan is funded with shares purchased on the open market, not treasury shares. There is no specified or authorized limit to the number of RSUs that may be issued.

Term of RSUs/Forfeiture/Assignability

The RSUs have a maximum term of approximately three years. Unless otherwise determined by the HRCC, the 2006 RSU Plan requires participants to be employed on the date of distribution. Participants whose employment with the Corporation ceases prior to the distribution date for any reason forfeit the right to receive any RSUs. However, the HRCC has discretion to accelerate the vesting of any RSUs held by a participant and to permit the distribution of shares in respect of the maturing vested RSUs to a participant whose employment has ended prior to the distribution date. RSUs are not assignable. The Board and the HRCC have extended the holding periods for holders of RSUs and options in the event of termination of employment under certain conditions such as early retirement. The details are found on pages 49 and 50.

Limits on Individual and Insider Participation

The awards are not settled with treasury shares. There is no limit to individual participation.

Share Capital Adjustments

The Board shall amend the terms of any outstanding option and RSU awards as it considers equitable in order to preserve the proportionate rights and obligations of the participants in the event of a capital reorganization of the Corporation, including amalgamation, combination, arrangement or merger, a subdivision or consolidation of common shares or any similar capital reorganization or payment of a stock dividend that does not constitute a "change in control" (as defined in the 2006 RSU Plan).

Vesting

Under the 2006 RSU Plan, the Board is authorized to determine the time-vesting and performance-vesting restrictions for grants of RSUs. Upon a change in control of the Corporation, the Board may accelerate the vesting of any outstanding RSUs, in which case any unvested RSUs following the change in control will be terminated. Similarly, the Board may at any time accelerate the vesting of any RSUs in circumstances involving retirement, death or other termination of employment of a participant and to permit the distribution of shares in respect of the RSUs to a participant whose employment has ended prior to the distribution date.

Amendment

The 2006 RSU Plan currently provides that the Board may amend, suspend or terminate the plan provided that such action does not impair the rights or obligations arising from an award previously granted to an employee without the employee's consent.

2013 SHARE PURCHASE AND DEFERRED SHARE UNIT PLAN

The Share Purchase and Deferred Share Unit Plan (the “2013 DSU Plan”) was adopted on March 21, 2013 and was approved by shareholders on May 2, 2013 and approved by the TSX. It allows awards of DSUs to eligible directors.

Eligibility

Only non-employee directors of the Corporation are eligible to participate in the 2013 DSU Plan.

Election to Participate

Participation in the 2013 DSU Plan is voluntary. Under the 2013 DSU Plan, eligible directors may elect annually to receive their retainer and fees in the form of DSUs or common shares of the Corporation (or any combination thereof).

If an eligible director elects to receive all or a portion of his or her retainer and fees as common shares of the Corporation, quarterly, on predetermined dates, the Corporation or its designee purchases common shares on the TSX at market rates on behalf of the participating directors equal in value to the retainer and fees elected by the director to be satisfied in common shares. The Corporation arranges the purchase of the common shares and is responsible for commissions and any administration fees. Common shares acquired for an eligible director shall be registered in such name as the director may direct.

If an eligible director elects to receive all or a portion of his or her fees and retainer in the form of DSUs, the Corporation credits to an account established for that purpose by the Corporation on the books of the Corporation the number of DSUs received. The number of DSUs an eligible director receives is equal to (i) the amount of his or her fees and retainer elected to be received in the form of DSUs, divided by (ii) the weighted average trading price of the common shares on the TSX for the five (5) trading days immediately preceding the date DSUs are to be awarded. The award date, unless otherwise determined by the CGC, is the first business day following the 14th day of the month following the end of each calendar quarter. DSUs attract dividends in the form of additional DSUs at the same rate as dividends on common shares of the Corporation. The number of additional DSUs received as a result of the payment of a dividend on the common shares is equal to (i) (a) the amount of the dividend per common share multiplied by (b) the number of DSUs in the participant’s account on the payment date of the dividend, divided by (ii) the weighted average trading price of the common shares on the TSX for the five (5) trading days immediately preceding the dividend record date.

Distribution on the DSUs

Participants are not eligible to receive a distribution on the DSUs until, among other things, the participant ceases to be a director of the Corporation. The value of a DSU on distribution is calculated on a predetermined date in the future (which may be more than a year after the participant ceases to be a director), or an earlier date if elected by the participant or his or her estate. Generally, the value of a DSU (or number of common shares to be distributed) cannot be determined during or within two business days following a corporate blackout period applicable to then current directors of the Corporation but must be made as of the tenth business day following the end of such blackout period.

Under the 2013 DSU Plan, the Corporation is provided with the ability to elect, in its sole discretion, the method in which the Corporation will make a distribution on the DSUs. Distributions may be in the form of: (i) common shares issued by the Corporation from treasury equal in number to the whole number of DSUs (rounded down) recorded in the participant’s account on the distribution date; (ii) common shares purchased by the Corporation or its designee on the TSX equal in number to the whole number of DSUs (rounded down) recorded in the participant’s account on the distribution date; or (iii) a lump sum payment in cash equal to the number of DSUs (rounded down) recorded in the participant’s account on the distribution date multiplied by the weighted average trading price of the common shares on the TSX for the five trading days immediately preceding the distribution date (or any combination of options (i), (ii) and/or (iii)). Fractional DSUs will be satisfied in cash calculated as in (iii) above. Any distribution on account of DSUs shall be made net of applicable withholding taxes.

Any purchases made by the Corporation or its designee on the TSX are to be made in accordance with the policies and procedures of the TSX.

The Corporation shall bear the cost of commissions and all other expenses incurred in respect of the issuance of common shares from treasury or the purchase of common shares on the TSX and all common shares issued to or acquired for a participant shall be registered in such name as the participant may direct and shall be delivered in accordance with his or her instructions.

Number of Shares

The maximum number of common shares that may be issued by the Corporation from treasury pursuant to the 2013 DSU Plan is 700,000. There is no limit, however, on the number of common shares that may be purchased by the Corporation or its designee on the TSX to satisfy DSUs outstanding under or governed by the 2013 DSU Plan subject to any requirements of the TSX. The table below indicates the status of the shares reserved for DSU grants under the 2013 DSU Plan as of February 28, 2017.

	Number of Shares or DSUs ⁽¹⁾	Percentage of Shares Outstanding ⁽¹⁾
Shares issued from treasury pursuant to the distribution of DSUs		0.0%
DSUs granted and outstanding ⁽²⁾	346,445	0.2%
DSUs available for future grants ⁽³⁾	353,555	0.3%
Total number of shares reserved for issue	700,000	0.5%

Notes:

- (1) The number of DSUs and shares and percentage of the number of shares outstanding are given as of February 28, 2017.
- (2) In addition to the units in the table above, there are 19,684 units outstanding under the previous version of the plan for which distributions may only be made in cash. As no shares will be issued in respect of those units, they are not included in the table above.
- (3) Number of DSUs available for future grants to be satisfied by shares issued from treasury assuming that all granted and currently outstanding DSUs are satisfied by the shares issued from treasury. DSUs can be satisfied in cash or by shares purchased on the TSX.

Limits on Individual and Insider Participation

No more than 10% of the Corporation's total issued and outstanding common shares shall be issued to insiders of the Corporation within any one year period under the 2013 DSU Plan when combined with common shares issued to insiders of the Corporation under all of the Corporation's other security-based compensation arrangements.

In addition, no more than 10% of the Corporation's total issued and outstanding common shares shall be issuable to insiders of the Corporation at any time under the 2013 DSU Plan, when combined with all of the Corporation's other security-based compensation arrangements.

Share Capital Adjustments

The number of DSUs (and related number of common shares available for distribution in respect thereof) outstanding under the 2013 Plan shall be adjusted in such manner, if any, as the Board may in its discretion deem appropriate to preserve proportionally the interests of participants under the 2013 DSU Plan in the event of any subdivision, consolidation, stock dividend, capital reorganization, reclassification, exchange, or other change with respect to the common shares, or a consolidation, amalgamation, merger, spin-off, sale, lease or exchange of all or substantially all of the property of the Corporation or other distribution (other than normal cash dividends) of the Corporation's assets to shareholders.

Transfers of DSUs

Except as required by law, the rights of a participant under the 2013 DSU Plan and any DSUs held by such participant are not capable of being assigned or transferred except by testate or intestate succession. The Corporation may assign its rights under the 2013 DSU Plan to any company resulting from the

amalgamation, reorganization, combination, merger or arrangement of the Corporation or any company acquiring all or substantially all of the assets or business of the Corporation.

Effect of Death of a Participant

Upon the death of a participant, a payment on the participant's outstanding DSUs shall be made to the estate of such participant on the last business day of the month which is at least 180 days after the Corporation is notified of the death of the participant unless prior to such date the participant's estate chooses a later date for such payment, provided that such date is no later than the earlier of (i) the last business day of the calendar year following the calendar year in which the participant died and (ii) 15 business days following the distribution date of the participant otherwise determined under the 2013 DSU Plan. Similar but different rules apply to participants that are U.S. taxpayers. Payment on such outstanding DSUs shall be made in cash and/or common shares at the election of the Corporation and such payment shall be equivalent to the amount which would have otherwise been paid to the participant under the 2013 DSU Plan, calculated on the basis that the date on which the participant dies or the date elected by the estate, as applicable, is the distribution date.

If a participant dies while still a director, the last quarterly installment of the director's fees and retainer, as applicable, shall be paid in cash notwithstanding any election previously provided by such participant.

Amendments

The 2013 DSU Plan may be amended, suspended or terminated by the Board, subject to provisions of applicable law (including, without limitation, the rules, regulations and policies of the TSX, if any, that require the approval of shareholders or any governmental or regulatory body).

The Board may make any types of amendments to the 2013 DSU Plan without seeking shareholder approval except the following types of amendments which will require shareholder approval:

- (i) amendments to the fixed maximum number of common shares issuable from treasury under the 2013 DSU Plan, including an increase to the fixed maximum number of common shares issuable from treasury under the 2013 DSU Plan (other than as a result of customary share capital adjustments as contemplated in the 2013 DSU Plan) or a change from a fixed maximum number of common shares issuable from treasury under the 2013 DSU Plan to a fixed maximum percentage;
- (ii) any amendment expanding the categories of eligible directors entitled to participate in the 2013 DSU Plan which would have the potential of broadening or increasing insider participation;
- (iii) any amendment permitting the transfer or assignment of a DSU, except by testate or intestate succession; and
- (iv) amendments required to be approved by shareholders under applicable law (including, without limitation, the rules, regulations and policies of the TSX).

Examples of amendments that can be made to the 2013 DSU Plan without shareholder approval include (i) those of a technical or "housekeeping" nature or (ii) those that are necessary to conform the Plan to the requirements of applicable law or applicable regulatory requirements (including, without limitation, the rules, regulations and policies of the TSX) unless those amendments are required to be approved by shareholders under applicable law or such regulatory requirements.

No amendment, suspension or termination of the 2013 DSU Plan, however, may adversely affect any previously granted DSUs without the consent of the affected director. If the Board chooses to terminate or suspend the 2013 DSU Plan, no new DSUs will be issued, but previously credited DSUs will remain outstanding (but are not entitled to dividends except at the discretion of the Board) and shall be paid out in accordance with the terms of the 2013 DSU Plan.

OTHER MATTERS

DIRECTORS' AND OFFICERS' LIABILITY INSURANCE

The Corporation provides directors' and officers' liability insurance with a policy limit of \$60,000,000. Under this insurance coverage, Maple Leaf Foods is reimbursed for payments made under corporate indemnity provisions on behalf of its directors and officers subject to a deductible of \$50,000 per occurrence. Individual directors and officers are also reimbursed for losses arising during the performance of their duties for which they are not indemnified by Maple Leaf Foods. Excluded from coverage are illegal acts and acts which result in personal profit.

The total premium paid by the Corporation for directors' and officers' liability insurance in the last completed financial year was \$140,849 including taxes. No part of the premium is paid by any officer or director.

INTERESTS OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

Except as disclosed herein, none of the informed persons of the Corporation, as that term is defined in National Instrument 51-102, nor any proposed director of the Corporation, nor any associate or affiliate of any such person had any direct or indirect material interest, since January 1, 2016, in respect of any transaction or proposed transaction that has materially affected or will materially affect the Corporation or any of its subsidiaries.

OTHER BUSINESS

Management of the Corporation is not aware of any matters to come before the meeting other than those referred to in the Notice of Meeting.

RECEIPT OF SHAREHOLDER PROPOSALS FOR NEXT ANNUAL MEETING

Any shareholder who intends to present a proposal at our 2018 annual meeting of shareholders must send the proposal to the Corporation's Corporate Secretary at 6985 Financial Drive, Mississauga, Ontario, Canada L5N 0A1. In order for the proposal to be included in the proxy materials sent to shareholders for that meeting, the proposal must be received by the Corporation no later than December 27, 2017 and must comply with the requirements of Section 137 of the *Canada Business Corporations Act*.
