

MAPLE LEAF FOODS World's First Major Carbon Neutral Food Company

OUR VISION:

to be the most sustainable protein company on earth.

In 2015, we set a goal

to reduce our environmental footprint 50% by 2025.

In November 2019, we became one of only three animal protein companies globally to set **Science Based Targets—**the gold standard for emissions reductions aligned with the Paris Agreement on Climate Change.

(GHG) emissions and calculated our remaining, unavoidable emissions.

We reduced our greenhouse gas

We addressed these unavoidable

OUR CARBON FOOTPRINT

PROJECTS ADDRESSING

emissions by strategically investing in environmental projects throughout Canada and the United States.

99 MW wind energy project from 63 turbines.

Brady Wind I

from 87 turbines.

Manitoba, Canada

Spartanburg Landfill Gas South Carolina, USA Creates renewable fuel via methane
