## FINANCIAL OVERVIEW

Sales<sup>(i)</sup> for the second quarter of 2018 were \$909.2 million compared to \$925.9 million in the second quarter of 2017, a decrease of 1.8%, or an increase of 1.1% after adjusting for IFRS15, foreign exchange and acquisitions.

Sales for the first six months were \$1,726.8 million compared to \$1,737.1 million last year, a decrease of 0.6%, or an increase of 1.7% after adjusting for IFRS15, foreign exchange and acquisitions.

The Company adopted accounting standard IFRS 15 in the first quarter. Under the new standard sales was reduced by \$34.4 million (for the first six months by \$64.0 million) and cost of sales was reduced by a similar amount for the quarter, based on revised criteria for revenue recognition for certain repurchase agreements. Management expects a similar impact in future quarters.

Net earnings for the second quarter decreased to \$34.9 million (\$0.28 per basic share) compared to \$37.3 million (\$0.29 per basic share) in the second quarter of 2017. Margin expansion in prepared meats and volume growth in plant protein were offset by investments to launch the food renovation in our major brands and lower market values in pork. Second quarter results were also impacted by the change in the fair value of biological assets, unrealized gains on derivative contracts and lower restructuring charges, which are excluded in calculating Adjusted Operating Earnings<sup>(ii)</sup>.

For the first six months, net earnings were \$62.8 million (\$0.50 per basic share) compared to \$67.4 million (\$0.52 per basic share) last year. The decrease in net earnings for year to date is consistent with the factors noted above.

Adjusted Operating Earnings for the second quarter were \$57.8 million compared to \$75.0 million in the second quarter of 2017, and Adjusted Earnings per Share<sup>(iii)</sup> decreased to \$0.34 from \$0.41 last year. For the first six months, Adjusted Operating Earnings decreased to \$110.6 million from \$134.0 million, and Adjusted Earnings per Share decreased to \$0.64 from \$0.74 last year.

Adjusted EBITDA Margin<sup>(iv)</sup> for the second quarter was 10.1% compared to 11.2% last year. For the first six months, Adjusted EBITDA Margin decreased to 10.1% from 11.0% consistent with the factors noted above.

Several items are excluded from the discussions of underlying earnings performance as they are not representative of ongoing operational activities. Refer to the section entitled Non-IFRS Financial Measures of this Management Discussion and Analysis on page 10 for a description and reconciliation of all non-IFRS financial measures.

### Notes:

- <sup>(i)</sup> 2018 sales include the impact of the adoption of new accounting standard IFRS 15 - Revenue from Contracts with Customers. Refer to note 2(b) of the unaudited condensed consolidated interim financial statements for further details on the impact of the adoption of new accounting standards.
- <sup>(ii)</sup> Adjusted Operating Earnings, a non-IFRS measure, is used by Management to evaluate financial operating results. It is defined as earnings before income taxes adjusted for items that are not considered representative of ongoing operational activities of the business, and items where the economic impact of the transactions will be reflected in earnings in future periods when the underlying asset is sold or transferred. Please refer to the section entitled Non-IFRS Financial Measures starting on page 9 of this document.
- <sup>(iii)</sup> Adjusted Earnings per Share, a non-IFRS measure, is used by Management to evaluate financial operating results. It is defined as basic earnings per share and is adjusted on the same basis as Adjusted Operating Earnings. Please refer to the section entitled Non-IFRS Financial Measures starting on page 9 of this document.
- <sup>(iv)</sup> Adjusted EBITDA is calculated as earnings before interest and income taxes plus depreciation and intangible asset amortization, adjusted for items that are not considered representative of ongoing operational activities of the business, and items where the economic impact of the transactions will be reflected in earnings in future periods when the underlying asset is sold or transferred. Adjusted EBITDA margin is calculated as Adjusted EBITDA divided by sales. Please refer to the section entitled Non-IFRS Financial Measures starting on page 9 of this document.

## OPERATING REVIEW

The following table summarizes the Company's total sales and Adjusted Operating Earnings for the quarter ended June 30, 2018 and the first six months ended June 30, 2018.

(\$ thousands) (Unaudited)	Three months ended June 30,		Six months ended June 30,	
	2018	2017	2018	2017
<b>Total Sales</b>	<b>\$ 909,244</b>	\$ 925,873	<b>\$ 1,726,753</b>	\$ 1,737,058
<b>Adjusted Operating Earnings</b>	<b>\$ 57,833</b>	\$ 75,006	<b>\$ 110,605</b>	\$ 134,036
<b>Adjusted EBITDA Margin</b>	<b>10.1%</b>	11.2%	<b>10.1%</b>	11.0%

## SALES AND ADJUSTED OPERATING EARNINGS

Sales for the second quarter decreased 1.8% to \$909.2 million or an increase of 1.1% after adjusting for IFRS15, foreign exchange and acquisitions. Sales growth in sustainable meats, expansion of plant protein in the US and pricing taken in the fall of 2017 was offset by decreased market values in pork and lower prepared meats volumes.

Sales for the first six months decreased 0.6% to \$1,726.8 million or an increase of 1.7% after adjusting for IFRS15, foreign exchange and acquisitions. The decrease in sales is consistent with the factors noted above.

Adjusted Operating Earnings decreased to \$57.8 million compared to \$75.0 million in the second quarter of 2017. Challenging market conditions in the pork complex and investments to launch food renovation of major brands more than offset lower input costs, positive sales mix and continued progress in supply chain efficiency.

Adjusted Operating Earnings in the first six months was \$110.6 million compared to \$134.0 million last year. The decrease in Adjusted Operating Earnings is consistent with the factors noted above.

Adjusted EBITDA Margin for the second quarter was 10.1% compared to 11.2% in the second quarter of 2017. For the first six months, Adjusted EBITDA Margin decreased to 10.1% from 11.0% consistent with the factors noted above.

## GROSS MARGIN

Gross margin in the second quarter was \$139.3 million (15.3% of sales) compared to \$147.7 million (16.0% of sales) in the second quarter of 2017. Gross margin decreased due to changes in the fair value of biological assets, which were partially offset by unrealized gains on derivative contracts.

For the first six months, gross margin was \$271.4 million (15.7% of sales) compared to \$281.4 million (16.2% of sales) last year. The decrease in gross margin is consistent with the factors noted above.

## SELLING, GENERAL AND ADMINISTRATIVE EXPENSE

Selling, general and administrative expenses for the second quarter were \$89.2 million (9.8% of sales), compared to \$88.8 million (9.6% of sales) in the second quarter of 2017.

For the first six months of 2018, selling, general and administrative expenses were \$175.4 million (10.2% of sales), compared to \$169.9 million (9.8% of sales) last year. The increase is primarily due to the inclusion of selling, general and administrative expenses incurred by acquired companies in the period.

## OTHER INCOME (EXPENSE)

Other income for the second quarter was \$1.8 million compared to an expense of \$1.1 million last year and is primarily due to the receipt of insurance proceeds, partially offset by losses incurred on asset disposals.

For the first six months of 2018, other expense was \$1.1 million compared to an expense of \$3.8 million last year. The decrease in expense is consistent with the factors noted above.

Certain items in other income (expense) are excluded from the calculation of Adjusted EBITDA and Adjusted Earnings per Share as they are not considered representative of ongoing operational activities of the business. Other income (expense) used in the calculation of Adjusted EBITDA and Adjusted Earnings per Share for the second quarter is an income of \$3.4 million (2017: expense of \$0.8 million) and income of \$3.2 million (2017: income of \$0.0 million) for the first six months.

## RESTRUCTURING AND OTHER RELATED COSTS

During the three months ended June 30, 2018, the Company recorded restructuring and other related costs of \$1.9 million (2017: \$5.0 million). Of this amount, \$1.2 million related to accelerated depreciation and employee related costs, as a result of the announced closure of the plant in St. Anselme and \$0.3 million related to accelerated depreciation and employee related costs as a result of the

Thamesford turkey processing plant closure. The remaining \$0.4 million related to ongoing management and organizational restructuring initiatives.

During the six months ended June 30, 2018, the Company recorded restructuring and the other related costs of \$4.0 million (2017: \$11.5 million). Of this amount, \$2.2 million related to accelerated depreciation and employee related costs, as a result of the announced closure of the plant in St. Anselme and \$1.3 million related to accelerated depreciation and employee related costs as a result of the Thamesford turkey processing plant closure. The remaining \$0.5 million related to ongoing management and organizational restructuring initiatives.

## INCOME TAXES

The Company's income tax expense for the second quarter resulted in an effective tax rate of 27.3% (2017: 27.4%). The effective tax rate in 2018 in determining Adjusted Earnings per Share is 26.8% (2017: 26.8%). For 2018, the effective tax recovery rate on restructuring charges used in the computation of Adjusted Earnings per Share is 26.1% (2017: 26.1%). The effective tax recovery rate on items not considered representative of ongoing operations in 2018 is 24.7% (2017: 25.2%). The lower effective rate of recovery in 2018 primarily resulted from non-deductible acquisition-related transaction costs.

The Company's income tax expense for the six months resulted in an effective tax rate of 28.1% (2017: 27.9%). The higher effective rate in 2018 primarily resulted from non-deductible acquisition-related transaction costs and the geographic mix of earnings. The effective tax rate in 2018 in determining Adjusted Earnings per Share is 27.2% (2017: 26.9%). For 2018, the effective tax recovery rate on restructuring charges used in the computation of Adjusted Earnings per Share is 26.1% (2017: 26.1%). The effective tax recovery rate on items not considered representative of ongoing operations in 2018 is 23.4% (2017: 23.9%). The lower effective rate of recovery in 2018 primarily resulted from non-deductible acquisition-related transaction costs.

## ACQUISITIONS AND DIVESTITURES

On June 27, 2018, the Company signed a definitive agreement to acquire two processing plants and associated supply from Cericola Farms, a privately held company. The transaction will be financed through a combination of cash-on-hand and drawings under the existing credit facility and is expected to close in August, subject to normal closing requirements including Competition Bureau review.

On January 29, 2018, the Company acquired 100% of the outstanding shares of Field Roast Grain Meat Company, SPC ("Field Roast Grain Meat Co."), a privately held U.S. based corporation engaged in the production and distribution of premium grain-based protein and vegan cheese products for \$140.2 million (US\$113.7 million). The Company financed the transaction through a combination of \$89.5 million (US\$72.6 million) of cash-on-hand, \$49.3 million (US\$40.0 million) of drawings under its unsecured revolving credit facility, and \$1.4 million (US\$1.1 million) of contingent consideration payable to the seller.

Recognized goodwill is attributable to Field Roast Grain Meat Co.'s leadership position in the fast growing plant protein market combined with its considerable expertise, product development knowledge and skills. There is no goodwill expected to be deductible for tax purposes.

The Company has not yet finalized the amounts recorded for the Field Roast Grain Meat Co. acquisition.

On March 10, 2017, the Company acquired 100% of the outstanding shares of Lightlife Food Holdings, Inc. ("Lightlife"), a privately held U.S. based corporation engaged in the production and distribution of refrigerated plant protein products for \$190.7 million funded from cash-on-hand.

Recognized goodwill is attributable to the skills, talent and artisanal expertise of Lightlife's work force and the Company's leadership position in the fast growing plant protein market. The amount of goodwill deductible for tax purposes is \$6.1 million. Lightlife has a leading market share, and will provide the Company with a strong foothold in this expanding category.

During the three months ended June 30, 2018, the Company recorded transaction costs of \$0.8 million (2017: \$0.7 million) related to acquisition activities that have been excluded from the consideration paid and have been recognized as an expense in other income (expense). Refer to Note 17 of the unaudited condensed consolidated interim financial statements.

During the six months ended June 30, 2018, the Company recorded transaction costs of \$3.2 million (2017: \$5.0 million) related to acquisition activities that have been excluded from the consideration paid and have been recognized as an expense in other income (expense). Refer to Note 17 of the unaudited condensed consolidated interim financial statements.

## CAPITAL RESOURCES

The consumer foods industry in which the Company operates is generally characterized by high sales volume and high turnover of inventories and accounts receivable. In general, accounts receivable and inventories are readily convertible into cash. Investment in working capital is affected by fluctuations in the price of raw materials, seasonal and other market-related fluctuations. The Company has consistently generated a strong base level of operating cash flow, even in periods of higher commodity prices and during restructuring of its operations. These operating cash flows provide a base of underlying liquidity that the Company supplements with credit facilities and cash on hand to provide longer-term funding and to finance fluctuations in working capital levels.

On October 19, 2017, the Company amended its existing \$400.0 million unsecured committed revolving credit facility by extending the maturity of the facility to October 19, 2021 under similar terms and conditions using the same syndicate of Canadian, U.S. and international financial institutions. This unsecured facility can be drawn in Canadian or U.S. dollars and bears interest payable monthly, based on Banker's Acceptance and Prime rates for Canadian dollar loans and LIBOR for U.S. dollar loans. The facility is intended to meet the Company's funding requirements for general purposes, corporate development activities, and to provide appropriate levels of liquidity. As at June 30, 2018, the Company had drawn \$30.0 million in U.S. dollars (CDN\$39.4 million), \$9.0 million in Canadian dollars and letters of credit of \$6.2 million on this facility (2017: only letters of credit of \$6.3 million).

This revolving term facility requires the maintenance of certain covenants. As at June 30, 2018, the Company was in compliance with all of these covenants.

The Company has additional uncommitted credit facilities for issuing up to a maximum of \$125.0 million (2017: \$120.0 million) letters of credit. As at June 30, 2018, \$71.4 million of letters of credit had been issued thereon (2017: \$66.8 million).

The Company's cash balance as at June 30, 2018 is \$36.5 million (2017: \$104.8 million). The Company has invested in short-term deposits with Canadian financial institutions having long-term debt ratings of A or higher.

The Company operates an accounts receivable securitization facility. The maximum cash advance available to the Company under this program is \$110.0 million. The facility provides cash funding with a proportion of the Company's receivables being sold, and provides the Company with competitively priced financing and further diversifies its funding sources. Under the facility, the Company has sold certain accounts receivable, with very limited recourse, to a third party trust that is funded by an international financial institution with a long-term AA- debt rating. The receivables are sold at a discount to face value based on prevailing money market rates.

As at June 30, 2018, the Company had \$146.5 million (2017: \$152.4 million) of trade accounts receivable serviced under this facility. In return for the sale of these receivables, the Company will receive cash of \$110.0 million (2017: \$110.0 million) and notes receivable in the amount of \$36.5 million (2017: \$42.4 million). Due to the timing of receipts and disbursements, the Company may, from time to time, record a receivable or payable related to the securitization facility, and as at June 30, 2018, this net payable amounted to \$0.0 million (2017: \$7.6 million net receivable). The facility is accounted for as an off-balance sheet transaction in accordance with International Financial Reporting Standards ("IFRS") and will expire in August 2019.

The Company's securitization is subject to certain restrictions, including the maintenance of covenants. The Company was in compliance with all of the requirements of these facilities as at June 30, 2018. If the securitization facility was to be terminated, the Company would recognize the related amounts on the consolidated balance sheet and consider alternative financing if required.

## **CAPITAL EXPENDITURES**

Capital expenditures for the second quarter were \$47.5 million, compared to \$27.0 million in the second quarter of 2017, and for the first six months of 2018 were \$82.9 million compared to \$47.2 million in 2017. The increase in expenditures is primarily driven by timing of profit enhancement and maintenance projects compared to 2017.

## **NORMAL COURSE ISSUER BID**

On May 22, 2018, the Toronto Stock Exchange ("TSX") accepted the Company's notice of intention to commence a Normal Course Issuer Bid ("NCIB"), which allows the Company to repurchase, at its discretion, up to 7.8 million common shares in the open market or as otherwise permitted by the TSX, subject to the normal terms and limitations of such bids. Common shares purchased by the Company are cancelled. The program commenced on May 24, 2018 and will terminate on May 23, 2019, or on such earlier date as the Company completes its purchases pursuant to the notice of intention. Under this bid during the three and six months ended June 30, 2018, 1.0 million shares were purchased for cancellation for \$31.0 million at a volume weighted average price paid of \$31.11 per common share.

On May 17, 2017, the TSX accepted the Company's notice of intention to commence a NCIB, which allows the Company to repurchase, at its discretion, up to 8.2 million common shares in the open market or as otherwise permitted by the TSX, subject to the normal terms and limitations of such bids. Common shares purchased by the Company are cancelled. The program commenced on May 23, 2017 and was terminated on May 22, 2018 as the Company completed its purchase and cancellation of 3.6 million common shares for \$117.3 million at a volume weighted average price of \$32.51 per common share. Under this bid during the three months ended June 30, 2018, 0.6 million (2017: 0.3 million) shares were purchased for cancellation for \$17.8 million (2017: \$8.8 million) at a volume weighted average price paid of \$29.26 (2017: \$32.93) per common share. During the six months ended June 30, 2018, 1.3 million shares (2017: 0.3 million) were purchased for cancellation for \$39.9 million (2017: \$8.8 million) at a volume weighted average price paid of \$31.17 (2017: \$32.93) per common share.

On May 16, 2016, the TSX accepted the Company's notice of intention to commence a NCIB, which allowed the Company to repurchase, at its discretion, up to 8.7 million common shares in the open market or as otherwise permitted by the TSX, subject to the normal terms and limitations of such bids. The program commenced on May 19, 2016 and was terminated on May 18, 2017, as the Company completed its purchase and cancellation of 5.5 million common shares for \$163.1 million at a volume weighted average price of \$29.57 per common share. Under this bid during the three months ended June 30, 2017, 0.6 million shares were purchased for

cancellation for \$20.7 million at a volume weighted average price paid of \$32.57 per common share. During the six months ended June 30, 2017, 3.4 million shares were purchased for cancellation for \$102.6 million at a volume weighted average price paid of \$30.09 per common share.

## CASH FLOWS

Cash was \$36.5 million at the end of the second quarter of 2018, compared to \$104.8 million last year, and \$203.4 million as at December 31, 2017. In the first six months of 2018, the decrease in cash was largely due to the acquisition of Field Roast Grain Meat Co., share repurchases under the NCIB programs, investment in property and equipment, and quarterly dividend payments, partially offset by loans drawn on the credit facility.

### Cash Flow from Operating Activities

Cash provided by operations for the quarter were \$70.5 million compared to \$42.1 million in the second quarter of 2017. The increase was primarily due to a higher margin received by the Company against its derivatives for its commodity hedging program, and lower investment in working capital, partially offset by higher restructuring payments.

For the first six months of 2018, cash provided by operations were \$102.5 million compared to \$97.1 million last year. The increase was due to higher margin received by the Company against its derivatives for its commodity hedging program, and lower investment in working capital, partially offset by higher restructuring payments.

### Cash Flow from Financing Activities

Cash used in financing activities for the quarter was \$54.1 million compared to \$45.9 million in the second quarter of 2017. The increased use of cash was primarily due to increased share repurchases under the NCIB programs, which was partially offset by repayment of long-term debt.

For the first six months of 2018, cash used in financing activities was \$48.2 million compared to \$150.9 million last year. The improvement was primarily due to fewer share repurchases under the NCIB programs and cash drawings against the revolving credit facility.

### Cash Flow from Investing Activities

Cash used in investing activities for the quarter was \$47.5 million compared to \$35.0 million in the second quarter of 2017. The increase was driven by higher investment in property and equipment.

For the first six months of 2018, cash used in investing activities was \$221.3 million compared to \$245.1 million last year. The reduction was primarily due due to the purchase price for the 2018 acquisition of Field Roast being lower than the 2017 acquisition of Lightlife.

## SHARE CAPITAL

As at July 19, 2018, there were 126,047,489 common shares issued and outstanding.

## OTHER MATTERS

On July 25, 2018, the Board of Directors approved a dividend of \$0.13 per share payable September 28, 2018 to shareholders of record at the close of business on September 7, 2018. #### *Financial Instruments – Recognition and Measurement*

Beginning on January 1, 2018, the Company adopted IFRS 9 Financial Instruments which replaces IAS 39 Financial Instruments: Recognition and Measurement and provides detailed guidance on classification and measurement of financial assets and liabilities, impairment of financial assets, and hedge accounting. Refer to the Interim Report to Shareholders for the First Quarter Ended March 31, 2018 Note 2(b) for the initial impact of adoption.

#### *Share-Based Payments*

Beginning on January 1, 2018, the Company adopted amendments to IFRS 2 Share-Based Payments which provides clarification on how to account for certain types of share-based payment transactions. The adoption of the amendments to IFRS 2 did not have a material impact on the consolidated financial statements.

*Foreign Currency Transactions and Advance Considerations*

Beginning on January 1, 2018, the Company adopted IFRIC 22 Foreign Currency Transactions and Advance Consideration which requires that when a foreign currency transaction where consideration is received or paid in advance of the recognition of the related asset, expense, or income, the exchange rate used should be based on the exchange rate as at the date when the pre-payment asset or deferred liability is recognized. The adoption of IFRIC 22 did not have a material impact on the consolidated financial statements.

**Accounting Pronouncements Issued But Not Yet Effective***Leases*

In January 2016, the IASB issued IFRS 16 Leases with a mandatory effective date of January 1, 2019. The new standard will replace IAS 17 Leases and will carry forward the accounting requirements for lessors. IFRS 16 provides a new framework for lessee accounting that requires substantially all assets obtained through operating leases to be capitalized and a related liability to be recorded. The new standard seeks to provide a more accurate picture of a company's leased assets and related liabilities and create greater comparability between companies who lease assets and those who purchase assets. The Company intends to adopt IFRS 16 in its consolidated financial statements for the annual period beginning January 1, 2019. A preliminary analysis has been completed and the Company is currently reviewing the relevant leases. The extent of the impact of the adoption of IFRS 16 has not yet been determined.

*Uncertainty over Income Tax Treatments*

In June 2017, the IASB issued IFRIC 23 Uncertainty over Income Tax Treatments with a mandatory effective date of January 1, 2019. The interpretations provide guidance on how to value uncertain income tax positions based on the probability of whether the relevant tax authorities will accept the company's tax treatments. A company is to assume that a taxation authority with the right to examine any amounts reported to it will examine those amounts and will have full knowledge of all relevant information when doing so. IFRIC 23 is to be applied by recognizing the cumulative effect of initially applying these guidelines in opening retained earnings without adjusting comparative information. The extent of the impact of the adoption of IFRIC 23 has not yet been determined.

*Long-term Interests in Associates and Joint Ventures*

In October 2017, the IASB issued Long-term interests in Associates and Joint Ventures (Amendments to IAS 28) with a mandatory effective date of January 1, 2019. The amendments clarify that a company applies IFRS 9 to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture. The Company intends to adopt the amendments to IAS 28 retrospectively in its consolidated financial statements for the annual period beginning January 1, 2019. The adoption of the amendments to IAS 28 is not expected to have a material impact on the consolidated financial statements.

*Annual Improvements to IFRS (2015-2017) Cycle*

In December 2017, the IASB issued narrow-scope amendments to a total of four standards as part of its annual improvement process. Amendments were made to clarify that a company must remeasure its previously held interest in a joint operation when it obtains control of the business in accordance with IFRS 3 Business Combinations but does not remeasure when it obtains joint control of the business under IFRS 11 Joint Arrangements. The amendments also include clarification that, all income tax consequences of dividend payments should be recognized consistently with the transactions that generated the distributable profits, under IAS 12 Income Taxes and that under IAS 23 Borrowing Costs, any specific borrowing that remains outstanding after the related asset is ready for its intended use or sale becomes part of general borrowings. The Company intends to adopt these amendments prospectively in its consolidated financial statements for the annual period beginning January 1, 2019. The extent of the impact of the adoption of these standards has not yet been determined.

*Employee benefits (amendment)*

In February 2018, the IASB issued amendments to IAS 19 Employee Benefits with a mandatory effective date of January 1, 2019. The amendment clarifies the effect of a plan amendment, curtailment and settlement on the requirements regarding the asset ceiling. In addition, if a plan amendment, curtailment or settlement occurs, it is mandatory under the amended standard that the current service cost and the net interest for the period after the remeasurement are determined using the assumptions used for the remeasurement. This amendment is to be applied prospectively. The Company intends to adopt the amendments to IAS 19 in its consolidated financial statements for the annual period beginning January 1, 2019. The extent of the adoption of the amendments to IAS 19 has not yet been determined.

*Conceptual Framework*

On March 29, 2018, the IASB issued its revised Conceptual Framework for Financial Reporting. The revised Conceptual Framework does not constitute a substantial revision from the previously effective guidance, but does provide additional guidance on topics not previously covered such as presentation and disclosure. This amendment is effective on January 1, 2020. The Company intends to adopt this amendment in its consolidated financial statements for the annual period beginning January 1, 2020. The extent of the adoption of the revised Conceptual Framework for Financial Reporting has not yet been determined.

## INTERNAL CONTROL OVER FINANCIAL REPORTING

There has been no change in the Company's internal control over financial reporting during the period beginning on April 1, 2018 and ended on June 30, 2018, that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting.

## NON-IFRS FINANCIAL MEASURES

The Company uses the following non-IFRS measures: Adjusted Operating Earnings, Adjusted Earnings per Share, Adjusted EBITDA, Free Cash Flow and Net (Debt) Cash. Management believes that these non-IFRS measures provide useful information to investors in measuring the financial performance of the Company for the reasons outlined below. These measures do not have a standardized meaning prescribed by IFRS and therefore they may not be comparable to similarly titled measures presented by other publicly traded companies and should not be construed as an alternative to other financial measures determined in accordance with IFRS.

### Adjusted Operating Earnings

Adjusted Operating Earnings, a non-IFRS measure, is used by Management to evaluate financial operating results. It is defined as earnings before income taxes adjusted for items that are not considered representative of ongoing operational activities of the business and items where the economic impact of the transactions will be reflected in earnings in future periods when the underlying asset is sold or transferred. The table below provides a reconciliation of net earnings as reported under IFRS in the unaudited condensed consolidated interim statements of earnings to Adjusted Operating Earnings for the three and six months ended, as indicated below. Management believes that this basis is the most appropriate on which to evaluate operating results, as they are representative of the ongoing operations of the Company.

<sup>(iii)</sup> Unrealized gains/losses on derivative contracts are reported within cost of goods sold in the Company's 2018 second quarter unaudited condensed consolidated interim statements of earnings.

### Adjusted Earnings per Share

Adjusted Earnings per Share, a non-IFRS measure, is used by Management to evaluate financial operating results. It is defined as basic earnings per share and is adjusted on the same basis as Adjusted Operating Earnings. The table below provides a reconciliation of basic earnings per share as reported under IFRS in the unaudited condensed consolidated interim statements of earnings to Adjusted Earnings per Share for the three and six months ended, as indicated below. Management believes this basis is the most appropriate on which to evaluate financial results as they are representative of the ongoing operations of the Company.

### Adjusted Earnings Before Interest, Income Taxes, Depreciation, and Amortization

Adjusted EBITDA is calculated as earnings before interest and income taxes plus depreciation and intangible asset amortization, adjusted for items that are not considered representative of ongoing operational activities of the business, and items where the economic impact of the transactions will be reflected in earnings in future periods when the underlying asset is sold or transferred. The following table provides a reconciliation of net earnings as reported under IFRS in the unaudited condensed consolidated interim statements of earnings to Adjusted EBITDA for the three and six months ended, as indicated below. Management believes Adjusted EBITDA is useful in assessing the performance of the Company's ongoing operations and its ability to generate cash flows to fund its cash requirements, including the Company's capital investment program.

(\$ thousands) (Unaudited)	Three months ended June 30,		Six months ended June 30,	
	2018	2017	2018	2017

## Free Cash Flow

Free Cash Flow, a non-IFRS measure, is used by Management to evaluate cash flow after investing in the maintenance or expansion of the Company's asset base. It is defined as cash provided by (used in) operations, less additions to long-term assets. The following table calculates Free Cash Flow for the periods indicated below.

(\$ thousands) (Unaudited)	Three months ended June 30,		Six months ended June 30,	
	2018	2017	2018	2017
Cash provided by (used in) operating activities	\$ 70,471	\$ 42,132	\$ 102,526	\$ 97,140

<b>Free Cash Flow</b>	<b>\$ 22,930</b>	<b>\$ 15,150</b>	<b>\$ 19,625</b>	<b>\$ 49,903</b>

## Net (Debt) Cash

The following table reconciles Net (Debt) Cash to amounts reported under IFRS in the Company's consolidated financial statements for the three months ended, as indicated below. The Company calculates Net (Debt) Cash as cash and cash equivalents, less long-term debt and bank indebtedness. Management believes this measure is useful in assessing the amount of financial leverage employed.

The unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's 2017 annual audited consolidated financial statements.

### (a) Statement of Compliance

The unaudited condensed consolidated interim financial statements (or "consolidated financial statements") have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB") and using the accounting policies, determination of significant estimates and judgments, and corresponding accounting treatments consistent with the Company's 2017 annual audited consolidated financial statements, except for new standards adopted during the six months ended June 30, 2018 as described below.

The consolidated financial statements were authorized for issue by the Board of Directors on July 25, 2018.

### (b) Accounting Standards Adopted During the Fiscal Year

Beginning on January 1, 2018, the Company adopted certain IFRS standards and amendments. As required by IAS 34 Interim Financial Reporting and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, the nature and the effect of these changes are disclosed below:

#### *Revenue Recognition*

Beginning on January 1, 2018, the Company adopted IFRS 15 Revenue from Contracts with Customers using the modified retrospective approach where prior periods are not restated. IFRS 15 specifies the accounting treatment for all revenue arising from contracts with customers, unless the contracts are within the scope of other IFRS standards. Refer to the Interim Report to Shareholders for the First Quarter Ended March 31, 2018 Note 2(b) for the initial impact of adoption.

Revenue recognized during the six months ended June 30, 2018 that was included in other current liabilities as at January 1, 2018 was \$11.1 million.

#### Financial Instruments – Recognition and Measurement

Beginning on January 1, 2018, the Company adopted IFRS 9 Financial Instruments which replaces IAS 39 Financial Instruments: Recognition and Measurement and provides detailed guidance on classification and measurement of financial assets and liabilities, impairment of financial assets, and hedge accounting. Refer to the Interim Report to Shareholders for the First Quarter Ended March 31, 2018 Note 2(b) for the initial impact of adoption.

#### Share-Based Payments

Beginning on January 1, 2018, the Company adopted amendments to IFRS 2 Share-Based Payments which provides clarification on how to account for certain types of share-based payment transactions. The adoption of the amendments to IFRS 2 did not have a material impact on the consolidated financial statements.

#### Foreign Currency Transactions and Advance Considerations

Beginning on January 1, 2018, the Company adopted IFRIC 22 Foreign Currency Transactions and Advance Consideration which requires that when a foreign currency transaction where consideration is received or paid in advance of the recognition of the related asset, expense, or income, the exchange rate used should be based on the exchange rate as at the date when the pre-payment asset or deferred liability is recognized. The adoption of IFRIC 22 did not have a material impact on the consolidated financial statements.

### (c) Accounting Pronouncements Issued But Not Yet Effective

#### Leases

In January 2016, the IASB issued IFRS 16 Leases with a mandatory effective date of January 1, 2019. The new standard will replace IAS 17 Leases and will carry forward the accounting requirements for lessors. IFRS 16 provides a new framework for lessee accounting that requires substantially all assets obtained through operating leases to be capitalized and a related liability to be recorded. The new standard seeks to provide a more accurate picture of a company's leased assets and related liabilities and create greater comparability between companies who lease assets and those who purchase assets. The Company intends to adopt IFRS 16 in its consolidated financial statements for the annual period beginning January 1, 2019. A preliminary analysis has been completed and the Company is currently reviewing the relevant leases. The extent of the impact of the adoption of IFRS 16 has not yet been determined.

*Uncertainty over Income Tax Treatments*

In June 2017, the IASB issued IFRIC 23 Uncertainty over Income Tax Treatments with a mandatory effective date of January 1, 2019. The interpretations provide guidance on how to value uncertain income tax positions based on the probability of whether the relevant tax authorities will accept the company's tax treatments. A company is to assume that a taxation authority with the right to examine any amounts reported to it will examine those amounts and will have full knowledge of all relevant information when doing so. IFRIC 23 is to be applied by recognizing the cumulative effect of initially applying these guidelines in opening retained earnings without adjusting comparative information. The extent of the impact of the adoption of IFRIC 23 has not yet been determined.

*Long-term Interests in Associates and Joint Ventures*

In October 2017, the IASB issued Long-term interests in Associates and Joint Ventures (Amendments to IAS 28) with a mandatory effective date of January 1, 2019. The amendments clarify that a company applies IFRS 9 to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture. The Company intends to adopt the amendments to IAS 28 retrospectively in its consolidated financial statements for the annual period beginning January 1, 2019. The adoption of the amendments to IAS 28 is not expected to have a material impact on the consolidated financial statements.

*Annual Improvements to IFRS (2015-2017) Cycle*

In December 2017, the IASB issued narrow-scope amendments to a total of four standards as part of its annual improvement process. Amendments were made to clarify that a company must remeasure its previously held interest in a joint operation when it obtains control of the business in accordance with IFRS 3 Business Combinations but does not remeasure when it obtains joint control of the business under IFRS 11 Joint Arrangements. The amendments also include clarification that, all income tax consequences of dividend payments should be recognized consistently with the transactions that generated the distributable profits, under IAS 12 Income Taxes and that under IAS 23 Borrowing Costs, any specific borrowing that remains outstanding after the related asset is ready for its intended use or sale becomes part of general borrowings. The Company intends to adopt these amendments prospectively in its consolidated financial statements for the annual period beginning January 1, 2019. The extent of the impact of the adoption of these standards has not yet been determined.

*Employee benefits (amendment)*

In February 2018, the IASB issued amendments to IAS 19 Employee Benefits with a mandatory effective date of January 1, 2019. The amendment clarifies the effect of a plan amendment, curtailment and settlement on the requirements regarding the asset ceiling. In addition, if a plan amendment, curtailment or settlement occurs, it is mandatory under the amended standard that the current service cost and the net interest for the period after the remeasurement are determined using the assumptions used for the remeasurement. This amendment is to be applied prospectively. The Company intends to adopt the amendments to IAS 19 in its consolidated financial statements for the annual period beginning January 1, 2019. The extent of the adoption of the amendments to IAS 19 has not yet been determined.

*Conceptual Framework*

On March 29, 2018, the IASB issued its revised Conceptual Framework for Financial Reporting. The revised Conceptual Framework does not constitute a substantial revision from the previously effective guidance, but does provide additional guidance on topics not previously covered such as presentation and disclosure. This amendment is effective on January 1, 2020. The Company intends to adopt this amendment in its consolidated financial statements for the annual period beginning January 1, 2020. The extent of the adoption of the revised Conceptual Framework for Financial Reporting has not yet been determined.

**3. CASH AND CASH EQUIVALENTS**

As at June 30, 2018, the Company did not post any cash to collateralize its letters of credit (2017: \$15.6 million).

**4. ACCOUNTS AND NOTES RECEIVABLE**

	As at June 30, 2018	As at June 30, 2017	As at December 31, 2017
Trade receivables	\$ 109,667	\$ 99,871	\$ 90,862

Other	13,522	17,982	11,047
	\$ 143,515	\$ 140,474	\$ 123,968

The aging of trade receivables is as follows:

	As at June 30, 2018	As at June 30, 2017	As at December 31, 2017
Current	\$ 88,806	\$ 80,360	\$ 70,054
Past due 0-30 days	16,996	14,785	16,683
Past due 31-60 days	1,750	2,601	1,694
Past due > 60 days	2,115	2,125	2,431
	\$ 109,667	\$ 99,871	\$ 90,862

Trade receivables are impaired when there is objective evidence that the estimated future cash flows of the trade receivables are less than their contractual cash flows. The amount of impairment takes into account the financial condition of the customers, delinquencies in payments, collaterals and credit insurance coverage on the trade receivables.

The Company operates an accounts receivable securitization facility. The maximum cash advance available to the Company under this program is \$110.0 million. Under this facility, the Company has sold certain of its trade accounts receivable, with very limited recourse, to an unconsolidated third-party trust financed by an international financial institution with a long-term AA- debt rating, for cash and short-term notes back to the Company. The receivables are sold at a discount to face value based on prevailing money market rates. The Company retains servicing responsibilities for these receivables.

As at June 30, 2018, trade accounts receivable being serviced under this program amounted to \$146.5 million (2017: \$152.4 million). In return for the sale of its trade receivables, the Company will receive cash of \$110.0 million (2017: \$110.0 million) and notes receivable in the amount of \$36.5 million (2017: \$42.4 million). The notes receivable are non-interest bearing and are settled on the settlement dates of the securitized accounts receivable. Due to the timing of receipts and disbursements, the Company may, from time to time, also record a receivable or payable related to the securitization facility. As at June 30, 2018, the Company recorded a net payable amount of \$0.0 million (2017: \$7.6 million net receivable) in accounts payable and accruals.

The Company's securitization program requires the sale of trade receivables to be treated as a sale from an accounting perspective and as a result, trade receivables sold under this program are derecognized in the consolidated balance sheets as at June 30, 2018, June 30, 2017 and December 31, 2017.

Determination of fair value and the resulting hierarchy requires the use of observable market data whenever available and is consistent with the methodology used in the 2017 annual audited consolidated financial statements. The classification of a financial instrument in the hierarchy is based upon the lowest level of input that is significant to the measurement of fair value. For financial instruments that are recognized at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.
