Operation Highlights

General Facts

- Completed the construction of a world-class, \$772 million value-added poultry facility in London, Ontario in 2022.

Animal Care

- Developed broiler environmental enrichments for independent chicken producers to further enhance the expression of natural behaviour in chickens.
- Remote Video Auditing is used in our hatchery and processing plants to enhance animal welfare.
- Deployed SafeFlight real time digital trailer environmental monitoring in our Ontario trailers.
- Best-in-class animal holding and controlled atmosphere stunning in our new London facility.
- Canada's largest producer of Raised Without Antibiotics (RWA) chicken.

Environmental Initiatives

- Reduced solid waste consumption by over 2.4 million kg across our operations since 2015.
- In 2022, we opened our state-of-the-art London Poultry facility with immense investments in environmental technology throughout the plant.
- Invested in a new carbon offset project with the Biomass to Energy Project Pool located throughout Ontario.

Community Support

- Since December 2016, The Maple Leaf Centre for Food Security has committed \$6.7 million to community projects in Ontario, some of which have a national reach.
- Product donations in Ontario have totaled over \$6.7 million since 2016 to charitable organizations and food banks across the province.

Our operations include five broiler breeder farms and we source from 20 hatching egg producers, 409 chicken producers and 70 turkey producers.
