It proudly produces responsibly made, delicious food under powerhouse brands that include Maple Leaf®, Maple Leaf Prime®, Maple Leaf Natural Selections®, Maple Leaf Mighty Protein™, Musafir™, Schneiders®, Mina® Halal, Greenfield Natural Meat Co.®, LightLife®, Field Roast®, and Yves Veggie Cuisine®. The address of the Company's registered office is 6897 Financial Dr., Mississauga, Ontario, L5N 0A8, Canada. The unaudited condensed consolidated interim financial statements ("Consolidated Interim Financial Statements") of the Company as at and for the three and nine months ended September 30, 2026 include the accounts of the Company and its subsidiaries.

On October 1, 2025, the Company completed the spin-off of its pork operations, which have been presented as discontinued operations in the Consolidated Interim Statements of Earnings as required under IFRS Accounting Standards. More information regarding the spin-off can be found in the Company's Management Information Circular dated May 1, 2025.

2. MATERIAL ACCOUNTING POLICIES

The Consolidated Interim Financial Statements should be read in conjunction with the Company’s 2025 Annual Audited Consolidated Financial Statements ("2025 Consolidated Financial Statements"). The Company did not adopt any new accounting standards or policies during the three and nine months ended September 30, 2026.

(a) Statement of Compliance

The Consolidated Interim Financial Statements have been prepared in accordance with International Accounting Standard (“IAS”) *34 Interim Financial Reporting* ("IAS 34") as issued by the International Accounting Standards Board (“IASB”) and using the accounting policies, determination of significant estimates and judgments, and corresponding accounting treatments consistent with the Company’s 2025 Consolidated Financial Statements.

The Consolidated Interim Financial Statements were authorized for issue by the Board of Directors on November 3, 2026.

(b) Accounting Pronouncements Issued But Not Yet Effective

Presentation and Disclosure in Financial Statements – IFRS 18

On April 9, 2024, the IASB issued IFRS 18 *Presentation and Disclosure in Financial Statements* to improve reporting of financial performance. IFRS 18 replaces IAS 1 *Presentation of Financial Statements*. It carries forward many requirements from IAS 1 unchanged and introduces significant changes to the structure of a company’s income statement, more discipline and transparency in presentation of management's own performance measures, commonly referred to as 'non-GAAP measures', as well as less aggregation of items into large, single numbers. IFRS 18 applies for annual reporting periods beginning on or after January 1, 2027 with the requirement of retrospective restatement. Earlier application is permitted. The Company is in the process of assessing the impact of this amendment and intends to adopt it for the period beginning January 1, 2027 for the Consolidated Annual and Interim Financial Statements.

All other IFRSs and amendments issued but not yet effective have been assessed by the Company and are not expected to have a material impact on the Consolidated Interim Financial Statements.

Trade receivables are impaired when their estimated future cash flows are less than their contractual cash flows. The amount of impairment takes into account the financial condition of the customers, delinquencies in payments, collaterals and credit insurance coverage on trade receivables.

On May 31, 2026, the Company renewed its accounts receivable securitization facility (the "Securitization Facility") extending its maturity to May 31, 2028. The maximum cash advance available to the Company under the Securitization Facility is $185.0 million (September 30, 2025: $150.0 million; December 31, 2025: $150.0 million). The Securitization Facility provides cash funding with a proportion of the Company's receivables being sold, provides the Company with competitively priced financing and further diversifies its funding sources. Under the Securitization Facility, the Company has sold certain of its trade accounts receivable, with very limited recourse, to an unconsolidated third-party trust financed by an international financial institution with a long-term AA- debt rating, for cash and short-term notes back to the Company. The receivables are sold at a discount to face value based on prevailing money market rates. The Company retains servicing responsibilities for these receivables.

As at September 30, 2026, trade accounts receivable being serviced under this program amounted to $247.3 million (September 30, 2025: $163.3 million; December 31, 2025: $212.1 million). As consideration for the sale of its trade receivables, the Company will receive cash advances of $184.6 million (September 30, 2025: $116.2 million; December 31, 2025: $150.0 million) and notes receivable in the amount of $62.7 million (September 30, 2025: $47.1 million; December 31, 2025: $62.1 million). The notes receivable are non-interest bearing and are settled on the settlement dates of the securitized accounts receivable. Due to the timing of receipts and disbursements, the Company may, from time to time, also record a receivable or payable related to the Securitization Facility. As at September 30, 2026, the Company recorded a net payable in the amount of $18.5 million (September 30, 2025: $45.3 million net payable; December 31, 2025: $54.0 million net payable).

The sale of trade receivables under the Securitization Facility are treated as a sale from an accounting perspective and as a result, trade receivables sold under this facility are derecognized from the unaudited condensed consolidated interim balance sheets ("Consolidated Interim Balance Sheets") as at September 30, 2026 and September 30, 2025 and the 2025 annual audited consolidated balance sheet as at December 31, 2025.

As at January 1, 2025, the Company had a syndicated sustainability-linked credit facility (the "Credit Facility") which consisted of a $1,300.0 million unsecured committed revolving line of credit maturing June 29, 2027, and three unsecured committed term facilities for $300.0 million (Tranche 3), $350.0 million (Tranche 2) and US$265.0 million (Tranche 1) maturing June 20, 2025, June 29, 2026 and June 29, 2027, respectively. Tranche 3 was fully repaid at its maturity.

On October 1, 2025, immediately prior to completion of the spin-off transaction, the Company's pork operations entered into a four year secured credit agreement which consisted of $415.0 million in aggregate principal amount of term loans, and a $200.0 million revolving facility. $415.0 million in term loans was drawn on this facility. This facility also had capacity for up to $50.0 million in letters of credit, on which $0.6 million was drawn. This facility, belonging to Canada Packers Inc., was then derecognized as part of the spin-off transaction. The facility was in compliance with all covenants at the time of derecognition.

Upon closing of the spin-off of the Company's pork operations, the Company's existing Credit Facility was amended, and the unsecured committed revolving line of credit was reduced to $1,200.0 million and extended to mature on October 1, 2030; the unsecured committed term facility (Tranche 1) was reduced to US$200.0 million and extended to mature on October 1, 2029; and the unsecured committed term facility (Tranche 2) was increased to $550.0 million and extended to mature on October 1, 2028.

The Credit Facility may be drawn in Canadian or U.S. dollars and bears interest payable monthly, based on Canadian Overnight Repo Rate Average ("CORRA") and prime rates for Canadian dollar loans and based on the Secured Overnight Financing Rate ("SOFR") for U.S. dollar loans. The Credit Facility is intended to meet the Company's funding requirements for capital investments in addition to providing appropriate levels of liquidity for general corporate purposes. The interest rate on the Credit Facility may be adjusted up or down by a maximum of 5 basis points based on the Company's performance compared to specified sustainability targets.

The Company has additional uncommitted credit facilities for issuing letters of credit up to a maximum of $105.0 million (September 30, 2025: $105.0 million; December 31, 2025: $105.0 million). hierarchy is based upon the lowest level of input that is significant to the measurement of fair value. For financial instruments that are recognized at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

Accumulated Other Comprehensive Income

The Company estimates that $0.5 million, net of tax of $0.2 million, of the unrealized gain included in accumulated other comprehensive income will be reclassified into earnings within the next 12 months. During the three months ended September 30, 2026, a loss of $0.7 million, net of tax of $0.2 million, was released to earnings from accumulated other comprehensive income and included in the net change for the year (2025: no amount was released).

During the nine months ended September 30, 2026, a loss of $1.3 million, net of tax of $0.5 million, was released to earnings from accumulated other comprehensive income and included in the net change for the year (2025: gain of $0.3 million, net of tax of $0.1 million).
